Deterrence Reconsidered John Hagan,1982-10-01 Leading figures in quantitative criminology consider deterrence in new and creative ways They show how advances in research design and statistical techniques coupled with theoretical innovation have had a major impact on our understanding of an enduring policy problem **Deterrence Reconsidered** John Hagan,1982-11 Leading figures in quantitative criminology consider deterrence in new and creative ways They show how advances in research design and statistical techniques coupled with theoretical innovation have had a major impact on our understanding of an enduring policy problem Taxpayer Compliance, Volume 1 Jeffrey A. Roth,1989-06-29 Drawing on multiple disciplines with a significant interest in taxpayer compliance Volume I critically reviews previous research on the subject reaches conclusions and recommends future research programs to fill gaps in knowledge Crime Prevention Steven Lab,Steven P. Lab,2019-07-24 Crime Prevention Approaches Practices and Evaluations Tenth Edition meets the needs of students and instructors for engaging evidence based impartial coverage of interventions that can reduce or prevent deviance This edition examines the entire gamut of prevention from physical design to developmental prevention to identifying high risk individuals to situational initiatives to partnerships and beyond Strategies include primary prevention measures designed to prevent conditions that foster deviance secondary prevention measures directed toward persons or conditions with a high potential for deviance and tertiary prevention measures to deal with persons who have already committed crimes In this book Lab offers a thorough and well rounded discussion of the many sides of the crime prevention debate in clear and accessible language including the latest research concerning space syntax physical environment and crime neighborhood crime prevention programs community policing crime in schools and electronic monitoring and home confinement This book is essential for undergraduates studying criminal justice criminology and sociology in the US and globally Online resources include an instructor s manual test bank and lecture slides for faculty and a wide array of resources for students *Crime Prevention* Steven P. Lab,2016-02-12 Crime Prevention Approaches Practices and Evaluations 9th Edition meets the needs of students and instructors for engaging evidence based impartial coverage of the origins of crime as well as of public policy that can reduce or prevent deviance The book examines a range of approaches to preventing crime and elucidates their respective goals Strategies include primary prevention measures designed to prevent conditions that foster deviance secondary prevention measures directed toward persons or conditions with a high potential for deviance and tertiary prevention measures to deal with persons who have already committed crimes This edition provides research and information on all aspects of crime prevention including the physical environment and crime neighborhood crime prevention programs community policing crime in schools and electronic monitoring and home confinement Lab offers a thorough and well rounded discussion of the many sides of the crime prevention debate in clear and accessible language *Public Health Law Research: Theories and Methods* , **Punishment and Crime** Gary Kleck,Brion Sever,2017-10-04 This book

summarizes and synthesizes a vast body of research on the effects of legal punishment and criminal behavior. Covering studies conducted between 1967 and 2015, *Punishment and Crime* evaluates the assertion that legal punishment reduces crime by investigating the impacts both positive and negative of legal punishment on criminal behavior with emphasis on the effects of punitive crime control policies via the mechanisms of deterrence and incapacitation. Brion Sever and Gary Kleck, author of the renowned *Point Blank: Guns and Violence in America*, present a literature review on legal punishment in the United States that is unparalleled in depth and scope. This text is a must read for students, researchers, and policymakers concerned with the fields of corrections and crime prevention.

Taxpayer Compliance, Volume 2 Jeffrey A. Roth, John T. Scholz, 2016-11-11. Not everyone complies with the United States Internal Revenue Code. Many individuals and organizations fail to file timely tax returns, assess their tax liability correctly, or pay taxes when due. To improve compliance, tax administrators must choose among alternative strategies such as increasing evaders' risks of punishment, motivating social norms, and making compliance easier. Concerned with these choices, the IRS asked the National Academy to assess previous research on the determinants of taxpayer compliance and to highlight the most promising areas for future research. The Academy's panel authored the two-volume *Taxpayer Compliance*. Volume 2 is a collection of eight background papers commissioned by the panel. They present novel theories and research ideas proposed by scholars from many social sciences to improve the understanding of taxpayer compliance. The varied topics addressed include the political and institutional context of the American tax system, a typology of noncompliance, a study of the way the visibility of noncompliance affects patterns of taxpaying in the house painting profession, and theories of ways tax practitioners may affect their clients' compliance. These papers not only illustrate for a general audience what various disciplines can add to knowledge but also suggest for specialized researchers the opportunities that taxpayer compliance offers for extending and testing the theories of their disciplines. *Taxpayer Compliance* will be a valuable reference for tax practitioners and others concerned with noncompliance problems and for scholars and students of law and sociology, political science, social psychology, and economics. *Publications* University of Michigan. Institute for Social Research, **NIJ Reports**, 1983. **Criminology & Penology Abstracts**, 1984.

Handbook on Crime and Delinquency Prevention Elmer Hubert Johnson, 1987-04-21. The *Handbook* clearly points out that although the literature on crime prevention is voluminous, the social conditions that invoke criminality are resistant to social change. The articles repeatedly demand a critical evaluation of prevention theories and programs and call for accountability within the crime prevention profession. The collection will serve as a valuable resource for policymakers and practitioners as well as for academics. The volume includes an excellent directory of crime delinquency prevention organizations and a supplementary bibliography.

Choice. In recent years, the idea of prevention as a means of controlling crime has gained unprecedented popularity. Advocates of crime prevention frequently see its proactive nature to be superior to the reactive stance of typical law enforcement. Yet major questions continue to arise about what prevention is

how it can be carried out to whom it should be directed and where it can best be implemented Elmer E Johnson has drawn together a variety of perspectives in an effort to provide an integrated analysis of fundamental concepts relating to the preventive approach **Bowker's Law Books and Serials in Print** ,1986 ABF Working Paper ,1987 **Recent Transportation Literature for Planning and Engineering Librarians** University of California, Berkeley. Institute of Transportation Studies. Library,1987 The New Criminologies in Canada Thomas Fleming,Thomas O'Reilly-Fleming,1985 Time to Think Robert R. Ross,Elizabeth Fabiano,1985 *The Judicial Process* Henry Julian Abraham,1986 Written by one of the nation s most astute observers of the court this classic text examines the theory practice and people behind the judicial process The new seventh edition brings the work completely up to date by examining important developments and structural changes in these three judicial systems up through the end of 1997 including judicial appointments during the Bush and Clinton administrations significant alterations in the structure and organization of the United States British French and other European courts with an emphasis on the ongoing changes in the judiciary of the United Kingdom and the collateral developments on the frontiers of judicial review procedures as well as the judicial role At once comparative expository analytical and evaluative this new edition of *The Judicial Process* illuminates even more vividly the judiciary s political legal and governmental roles examining closely that much debated but little understood line between judicial activism and judicial restraint Aggression and War Jo Groebel,Robert A. Hinde,1989-03-23 Derived from a meeting of natural and social scientists this interdisciplinary book aims to summarize the main issues regarding the problem of human aggression as well as human beliefs about the subject This study brings together internationally known authorities and presents their recent contributions which range in complexity from the physiological to individual aggression group conflict and international war The study concludes with a multi level approach to the problems of aggression and war In nontechnical language suitable for general science readers the book provides a valuable framework for the development of ideas and new attitudes in a field rife with misconceptions **Introduction to Criminology** Hugh D. Barlow,1996 Barlow s Introduction to Criminology is a comprehensive introduction to crime criminality and societal responses from a sociological perspective Strong coverage of historical trends is a key feature of the text allowing students to examine recent events within a context of social change This edition has been updated throughout with current information and examples to reflect society s changing response to criminal behavior including new coverage of small business crime motorcycle gangs community policing AIDS in prison and the theories behind intelligence and crime and female crime
