The Development Encounters: Local Resistance and State Intervention Man Purotaganon, 1999

Development with a Body Andrea Cornwall, Sonia Correa, Susie Jolly, 2008-09-15 We used to talk about development with a human face We should be talking about development with a body Arit Oku Egbas African Regional Sexuality Resource Centre Nigeria Sex and sexuality have always had a place at the heart of the development agenda from concerns regarding population and environment to practices in education and efforts for protecting reproductive health and rights Yet this agenda has largely focused on negative dimensions of sexuality disease risk violation rather than positive aspects including rights to sexual fulfillment wellbeing and pleasure The shift towards a rights based approach to development has brought the human rights dimensions of sexuality into clearer view and consequently the need to address discriminatory laws and violations of the human rights of those whose sexual identity and practices diverge from dominant sexual orders norms This book offers compelling insights into contemporary challenges and transformative possibilities of the struggle for sexual rights It combines the conceptual with the political and offering inspiring examples of practical interventions and campaigns that emphasize the positive dimensions of sexuality It brings together reflections and experiences of researchers activists and practitioners from Brazil India Nigeria Peru Serbia South Africa Turkey the UK and Zambia From political discourse on sex and masculinity to sex work and trafficking from HIV and sexuality to struggles for legal reform and citizenship the authors explore the gains of creating stronger linkages between sexuality human rights and development

Ziegler,2000-04 **Mind and Body** ,1924 *Psychology and Self-development* Henry Eastman Bennett,1923 The selection and rejection of material for this book has been an evolution in the classroom during many years of search for 1 that which will function directly in increasing the student s capacity as a learner 2 that which will afford the most useful basis for a course in teacher training 3 that which will best meet the needs for a first course

in college psychology 4 that which instead of merely skimming the cream of interest will definitely project the student's interest and expectation toward a further and more adequate pursuit of the subject 5 that which will best help the young student to maintain his poise amid the dizzying enlargements of his mental horizon as he climbs the ascent of higher education and thinks he sees dark chasms yawning between his new knowledge and his old faith It has been the intention to admit nothing which is merely argumentative or speculative which is not essential to the scientific integrity of the whole plan or practically applicable to the needs of the learner and to omit nothing which properly belongs in a thorough first course in psychology The functional viewpoint and the physiological basis have been woven into every chapter A close knit system of treatment has been sought which explains all psychical phenomena in terms of associations and progressive integration and the conditions which forward or retard these Each topic grows directly out of the preceding and usually begins with a connecting summary statement A sufficiently technical vocabulary has been gradually built up by introducing each word where the connection makes its meaning clear It is hoped that nothing has been lost in scope or scientific accuracy by the effort to make statements simple Preface
