Architects Of Emortality:

Architects of Emortality Brian Stableford, 2025-03-14 Brian Stableford launched an ambitious future history series with *Inherit the Earth* to widespread praise Stableford has created in this novel a totally believable world and wrapped it around a series of mysterious events surprise revelations double crosses confused motivations rumors lies plots and counterplots Tightly controlled and suspenseful throughout said *Science Fiction Chronicle Library Journal* said The ethical questions posed by the prospect of conquering the aging process underscore this fast paced SF adventure adding depth to a story that will appeal to fans of high tech SF and conspiracy theories This future world is a complex society obsessed with the technology of life extension and on the brink of creating true immortals Now in *Architects of Emortality* Stableford gives us a story set hundreds of years in the future filled with people who can hope for 300 year lifespans and a fortunate few whose lives will be in the thousands of years This society is on the edge of radical change where people have the time to develop eccentric lifestyles and personal obsessions a world sometimes reminiscent of the distant future of Michael Moorcock's *Dancers at the End of Time* series And there has been a series of murders that threaten the future stability of the world murders executed by bioengineered flowers Police officers Watson and Holmes investigate but the central figure quickly becomes the amateur detective Oscar Wilde a student of history who has taken on the persona of his namesake And the question is not so much who the murderer is but how and why Filled with memorable characters and powerful and striking images of the richly altered world of the future *Architects of Emortality* is a satisfying and complete story that also adds depth and detail to the evolving series At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

The Omega Expedition Brian Stableford, 2025-03-14 The sixth volume of Brian Stableford's future history concludes the series and also refers back to its beginnings Through five earlier volumes *Inherit the Earth* *Architects of Emortality* *The Fountains of Youth* *The Cassandra Complex* and *Dark Ararat* Stableford has mapped out for us in engaging stories the wonderful and sometimes disturbing world of the next thousand years on Earth throughout the solar system and to worlds beyond with emphasis on huge sociological changes and extraordinary alterations in the biological life of humans It is one of the most detailed and plausible and fascinating projections in all of science fiction Now in *The Omega Expedition* it takes us into another millennium and is complete *The Omega Expedition* is a philosophical novel a sequel to *The Fountains of Youth* It is the extraordinary life history of Adam Zimmerman developer of the technology of emortality The main part of the narrative describes his long delayed awakening into the 35th century a time of true immortals His exotic hosts inhabitants of a microworld in the outer solar system have recruited various interested parties to help with the resurrection project one of whom inevitably is the famous historian of death the immortal Mortimer Gray who is exceedingly anxious to gain what insight he can into the vagaries of the mortal mind *The Omega Expedition* is a richly textured serious SF novel that will resound like a huge bell ringing down the halls of science fiction for years to come At the Publisher's request
