comprehensive results from case studies of three innovations in mathematics education that have much to offer toward
understanding current reforms in this field Each chapter tells the story of a case in rich detail with extensive documentation
and in the voices of many of the participants the innovators the teachers the students Similarly Volume 2 of Bold Ventures
pre sents the results from case studies of five innovations in science education Volume 1 provides a cross case analysis of all
eight innovations Many U S readers certainly will be very familiar with the name of at least if not all of the mathematics
innovations discussed in this volume for one example the NCTM Standards and probably with their general substance Much
of the education community s familiarity with these arises from the projects own dissemination efforts The research reported
in this volume however is one of the few detailed studies of these innovations undertaken by researchers outside the projects
