Climates of Hunger Reid A. Bryson, Thomas J. Murray, 1977 In recent years world climate changes have drawn more attention than at any other time in history What we once called crazy weather just a few years ago is now beginning to be seen as a part of a logical and in part predictable pattern an awesome natural force that we must deal with if man is to avoid disaster of unprecedented proportions *Climates of Hunger* is a book of paramount importance for our time It will be essential reading not only for professionals in the field including agricultural meteorologists political scientists geographers sociologists and business counselors but for all who are concerned in any way with environmental trends world and domestic food supplies and their effects on human institutions

Does the Weather Really Matter? William James Burroughs, 1997-09-18 We talk about it endlessly write about it copiously and predict it badly It influences what we do what we wear and how we live Weather how does it really impact our lives In this compelling look at weather author Burroughs combines historical perspective and economic and political analysis to give the impact of weather and climate change relevance and weight He examines whether the frequency of extreme events is changing and the consequences of these changes He looks at the chaotic nature of the climate and how this unpredictability can impose serious limits on how we plan for the future Finally he poses the important question what types of serious even less predictable changes are around the corner In balanced and accessible prose Burroughs works these issues into lucid analysis This refreshing and insightful look at the impact of weather will appeal to anyone who has ever worried about forgetting an umbrella William James Burroughs is the author of *Watching the World's Weather* CUP 1991 and *Weather Cycles Real or Imaginary* CUP 1994
