performs a chapter in the present book to cover a wide panorama of traditional circus acts acrobatics equestrian acts jugglers and magicians routines and of course clown performances discussed here as metacultural texts He shows that all these acts are governed by an internal logic and that when taken in sequence they exhibit both complementarity and a network of cross references that bind them into a single circus text rich in cultural meaning Each act can be seen to progress in terms of a dialectic of control and disturbance which culminates in a triumphant reassertion of the performer s mastery over his environment and thus this consolidation of his position as hero The cultural potency of this symbolic cycle is attested by its being a perennial source of satisfaction to circus goers of all ages and all social classes The circus is the living depository of certain of the most ancient arts of civilization Through it man continues to communicate with animals and with some of the higher powers lying within the normal aptitudes of the species which for this reason is endowed in our eyes with supernatural prestige We can congratulate ourselves that Professor Bouissac who has been himself a man of the circus has had the same time the intellectual capacity and the literary talent required to elaborate a theory which has always been lacking and which this book presents in a particularly brilliant manner Claude L vi Strauss *Blurb Klappentext* The Theatre ,1908 **Geyer's Stationer** ,1912 *Detroit Masonic News* ,1922 **Hampton's Magazine** ,1909 *Burns Mantle Best Plays and the Year Book of the Drama in America* ,1927 **The Billboard** ,1926 **Reports of Cases Determined in the Supreme Court of the Philippines from ...** Philippines.
