Chains That Bind:

Calcium Binding Proteins Eugene Permyakov, Robert H. Kretsinger, 2011-03-21 Calcium Binding Proteins explains the unique and highly diverse functions of calcium in biology which are realized by calcium binding proteins The structures and physical characteristics of these calcium binding proteins are described as well as their functions and general patterns of their evolution Techniques that underlie the description of proteins are discussed including NMR circular dichroism optical rotatory dispersion spectroscopy calorimetry and crystallography The book discusses the patterns of biochemical phenomena such as calcium homeostasis mineralization and cell signaling that involve specific proteins It summarizes ongoing research and presents general hypotheses that help to focus future research and also provides a conceptual framework and a description of the underlying techniques that permits someone entering the field to become conversant **Endocytosis and Exocytosis** A.G. Lee, 1996-12-17 Volume 4 of Biomembranes covers endocytosis exocytosis and related processes A major role of the plasma membrane is as a permeability barrier keeping the inside of the cell inside and the outside outside Mechanisms must then exist to allow movement of material between the cell and its environment One mechanism for export from the cell is by exocytosis a process in which the membranes of secretory vesicles fuse with the plasma membrane releasing the contents of the vesicle into the extracellular medium The process has been studied in particular depth for the release of neurotransmitters at the synapse Import into the cell is possible by the process of receptor mediated endocytosis in which selected plasma membrane proteins are internalized when these proteins are receptors for macromolecules the result is uptake of the macromolecule Transferring the low density lipoprotein and asialoglycoproteins are all taken up into cells in this way Phagocytosis the ingestion of cells and cell fragments by neutrophils and macrophages also involves receptors on the phagocytic membrane of which the best studied are those for the Fc domain of IgG for the third component of complement and for the mannose fructose carbohydrates Protection of a host against infection can also be achieved by damaging the integrity of the plasma membrane of the invading organism This is the strategy evolved by the cytotoxic T lymphocytes which produce a pore forming toxin perforin Volume 4 of Biomembranes explores the structures and mechanisms involved in these biologically and medically important processes **Immunobiology of HLA** Bo Dupont, 2013-12-20 This set reports the results of the 10th International Histocompatibility Workshop in which 362 laboratories collaborated over a three year period in research projects on the classification of HLA genes and their products Volume 1 describes the experimental design of the workshop studies and their results Volume 2 is a collection of papers on the latest developments in the molecular biology of HLA systems Immunobiology of HLA is a valuable reference for tissue typing laboratories blood banks and general research programs on HLA and related diseases because it identifies common sources of HLA genes and gene products to be used as reference reagents and because it is the only complete compilation of the latest research and results in the field **Encyclopedia of Biological Chemistry**, 2013-01-08 The 4 volume

Encyclopedia of Biological Chemistry Second Edition represents the current state of a dynamic and crucial field of study The Encyclopedia pulls together over 500 articles that help define and explore contemporary biochemistry with content experts carefully chosen by the Editorial Board to assure both breadth and depth in its coverage Editors In Chief William J Lennarz and M Daniel Lane have crafted a work that proceeds from the acknowledgement that understanding every living process from physiology to immunology and genetics is impossible without a grasp on the basic chemistry that provides its underpinning Each article in the work provides an up to date snapshot of a given topic written by experts as well as suggestions for further readings for students and researcher wishing to go into greater depth Available on line via SciVerse ScienceDirect the functionality of the Encyclopedia will provide easy linking to referenced articles electronic searching as well an online index and glossary to aid comprehension and searchability This 4 volume set thoroughly up to date and comprehensive expertly captures this fast moving field Curated by two esteemed editors in chief and an illustrious team of editors and contributors representing the state of the field Suggestions for further readings offer researchers and students avenues for deeper exploration a wide ranging glossary aids comprehension
