Basketball Shorts:

Young, Black, Rich, and Famous, 2008-03-01 In *Young Black Rich and Famous* Todd Boyd chronicles how basketball and hip hop have gone from being reviled by the American mainstream in the 1970s to being embraced and imitated globally today. For young black men he argues they represent a new version of the American dream, one embodying the hopes and desires of those excluded from the original version. Shedding light on both perception and reality, Boyd shows that the NBA has been at the forefront of recognizing and incorporating cultural shifts from the initial image of 1970s basketball players as overpaid black drug addicts to Michael Jordan's spectacular rise as a universally admired icon to the 1990s when the hip hop aesthetic, for example Allen Iverson's cornrows, multiple tattoos, and defiant-in-your-face attitude, appeared on the basketball court. Hip hop lyrics with their emphasis on keeping it real and marked by a colossal indifference to mainstream taste became an equally powerful influence on young black men. These two influences have created a brand new brand name generation that refuses to assimilate but is nonetheless an important part of mainstream American culture. This Bison Books edition includes a new introduction by the author.

Denied Michelle J. Manno, 2023-09-19 A courtside view of how women athletes' identities are policed on and off the court. Women's college basketball is big business; top teams bring in millions of dollars in revenue for their schools. Women's NCAA games are broadcast regularly on sports networks, and many of the top players and coaches are household names. Yet these athletes face immense pressure to be more than successful at their sport. They must also conform to expectations about gender, sexuality, and race, expectations that are often in direct contrast to success in the game. They are not supposed to have muscles that are too big; they are not supposed to be too tough; they are not supposed to be too masculine or look like men; and they are not supposed to be queer. A former college athlete herself, Michelle J. Manno spent a

full season with a highly competitive NCAA Division I women's basketball program as one of the team's managers. In vivid detail she takes us on the court, on the team bus, into the locker room, and to championship games to show the intense dedication that these women give to the game. She found perhaps unsurprisingly that these extremely talented women were strictly policed around the presentation of their gender and sexuality, especially the athletes who were Black. They were routinely monitored, banned from engaging in certain activities, and often punished for behavior that put their queerness, Blackness, and masculinity on display. Convincingly conforming to conventional expectations of gender and sexuality from the clothes they wore to the people they dated was yet another challenge at which they needed to excel. Importantly, Manno also highlights several well-known contemporary professional athletes: Brittney Griner, Serena Williams, Gabby Douglas, and Caster Semenya, among others, to show that fame and performing at the highest levels in sport does not protect women athletes from having to navigate the conflicting and often contradictory expectations of identity. A riveting portrait of an elite basketball program, *Denied* will forever change our understanding of women athletes and the sports they play. This humorous volume delivers unlimited prime-time slam-bang in your face fun. The Prisoner. Kerry Tucker, Craig Henderson, 2018-04-02. Kerry Tucker seemed to be a typical suburban mother of two, but she was harbouring a terrible secret: over the years, she had stolen 2 million from her employers. When her crime was discovered, she was sentenced to seven years at a maximum security prison alongside some of Victoria's most notorious criminals. Being incarcerated with murderers and drug dealers was not nearly as daunting, however, as having to tell her two young daughters why she was leaving them. The shame was almost unbearable. She knew that she could give in to the shame or learn from it, and she owed it to her children to learn. Kerry quickly adapted to the prison regime and set about using her skills to successfully represent women in internal court, parole hearings, and child welfare issues. She also introduced her own awareness programs and encouraged inmates to enrol in courses. Taking her own advice, she began to study for a Master of Arts, and when she completed her degree, the full university graduation ceremony was the first to be held inside an Australian prison. Today, Kerry has gone on to attain a PhD and has been reunited with her daughters. She considers jail a gift because it has given her a purpose: to help educate disadvantaged women. **VII.
