Prosperity Through Growth Arthur B. Laffer, Matthew Elliott, Michael Hintze, Douglas McWilliams, 2025-10-07 Prosperity Through Growth is a primer for reviving the UK economy co authored by some of our finest economic minds celebrated US economist Dr Arthur B Laffer inventor of the Laffer curve policy campaigner Matthew Elliott businessman Michael Hintze and founder of the Centre for Economics and Business Research Douglas McWilliams It begins by setting out the principles of ideal economic policy the North Star of prosperity through growth and applies them to the UK s current position The thinking takes account of the age of autocracy and AI in which political decisions in democracies are constrained and talented and entrepreneurial people are increasingly mobile making economic incentives even more important The final section draws on interviews with more than thirty economic decision makers from the worlds of business politics and the civil service including five Prime Ministers and nine Chancellors The interviews give insights into the economic and political causes of low growth and provide a strategy for implementing a pro growth agenda Specially commissioned research shows how the UK is forecast to slide down the league table of GDP per capita over the next twenty five years The book argues that such a slide is not inevitable and outlines a fully costed and modelled 24 7 Growth Plan to show how the decline can be averted
