from the year 2020 in the subject American Studies Literature grade 1 7 University of Augsburg American Studies course First Ladies language English abstract This work will focus on the two latest First Ladies Michelle Obama and Melania Trump Not only do they give an overview of how republican and democrat First Ladies eventually are depicted differently but both first Ladies have a special connection to fashion The First Lady of the United States or FLOTUS is the President s wife s official title Her position is a job with no rules or descriptions but she must fulfill duties including attending events giving speeches supporting her husband and being the mother of a nation Unlike the President her job is not a paid one At first glance the First Lady paints an outdated picture of wives As the mother of a nation the First Lady is supposed to be a role model Therefore magazines and news do frequently discuss the image of the President and the First Lady Those articles often focus on the FLOTUS wardrobe which might signify the wife s perception as an ornament of her husband They discuss the wardrobe considering appropriateness and message FLOTUS studies study what kind of position the First Lady has but it also studies her position as a role model To what extent is the First Lady a celebrity a politician and a US citizen involving information about American culture politics and feminism Gossip magazines might at first glance appear to focus on unnecessary details However fashion studies show that clothes have more meaning to them than just protecting the body from the weather Already in 1950 John Carl Flugel studied the psychology of clothes and discussed the purpose of clothes Roland Barthes followed Ferdinand de Saussure s theory on semiology to study fashion magazines and their clothes portrayal Alison Lurie extended fashion theory with an actual fashion vocabulary Theorists like Barthes have described fashion as a sign system but Lurie specified how clothes talk Fashion studies explain how clothes create and convey meaning Furthermore they ask who the creator of this meaning is and how culture and politics participate in creating meaning through clothes Fashion and political studies have been done before and play an essential role in studying the country that wears it After all fashion also participates in social change and is even change itself as Malcolm Barnard analyses Therefore the question about the colors and shape of a clothing item is not petty but essential to understand a country

Sartre and Psychoanalysis Betty Cannon, 1991 Betty Cannon is the first to explore the implications of Sartrean philosophy for the Freudian psychoanalytic tradition Drawing upon Sartre's work as well as her own experiences as a practicing therapist she shows that Sartre was a fellow traveler who appreciated Freud's psychoanalytic achievements but rebelled against the determinism of his metatheory The mind Sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as Freud's work suggested Sartre advocated an existentialist psychoanalysis based on human freedom and the self's ability to reshape its own meaning and value Through the Sartrean approach Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational needs By comparing Sartre with Freud and influential post-Freudians like Melanie Klein Otto Kernber Margaret Mahler D W Winnicott Heinz Kohut Harry Stack Sullivan and Jacques Lacan she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory In the process she adds a new dimension to our understanding of Sartre and his place in twentieth century philosophy
