Evolution?

**NOT REALLY!**

William A. Schaefer

# Creation Versus Evolution Not Really

**Lei Huang**

## **Creation Versus Evolution Not Really:**

**Creation Versus Evolution? Not Really!** William A. Schmeling, 1976      **Charting the Supernatural Judgements of Planet Earth** Jerimiah Asher, 2010-08-10 Chapter 3 The First Judgment The World Prior To Adam There may have been many judgments upon the earth since its beginning millions or billions of years ago however the present commentary will deal only with the last tens of thousands of years of earth's existence In Genesis 1:2 the verses written by Moses as author of the Genesis account portray an earth that was veiled in darkness so that its form could not be discerned The earth at that time was covered with water ice high above the mountain tops so that it gave the appearance of being a dark revolving sphere of frozen water Table 2 God's spirit is described as hovering over this revolving ball of water and brooding over the sad condition of this dark void planet God did not create a dark and dismal planet at the beginning because God does not create darkness in fact darkness is incompatible with His existence and presence So what had happened that God viewed Gen 1:2 such a decrepit state of the world Does scripture attempt to explain this phenomenon or does the inspired word of God remain silent on this issue It was first proposed as a theory by the Scotsman Thomas Chalmers in the early 19th century that a gap in time existed between Genesis 1:1 and Genesis 1:2 This gap in time would encompass a ruin reconstruction theme and the existence of pre Adamic living beings Obviously a huge catastrophic event would have had to occur to produce this decadent state of the world The gap concept was later popularized by mention in the margin notes of the Scofield Reference Bible      God, Revelation and Authority: God Who Stands and Stays (Vol. 6) Carl F. H. Henry, 1999-01-25 Part 6 in a monumental six volume set that presents an undeniable case for the revealed authority of God to a generation that has forgotten who he is and what he has done      Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1978      The Book of Genesis Ronald Youngblood, 1999-12-21 A thorough revision of Youngblood's two earlier studies How it all Began and Faith of our Fathers The Book of Genesis provides students with a vast resource for understanding the beginning of the universe marriage society redemption life sin and civilization Ronald Youngblood makes a profound application of the Genesis message to the issues of contemporary life      **Evolution or Creation?** Albert J. DeBenedictis, 2011-08-26 Have you ever wondered how the universe originated or whether the universe always existed Have you ever wondered how life began on earth Have you ever heard others discuss origins but felt unable to contribute to the conversation Would you like to defend your views but feel unequipped or inadequate to do so Are you unsure about what to believe Would you like to learn more about the subject of origins If so this book will be a help to you The subject of evolution and creation often causes much contention and controversy The question that may be asked is Why is there so much tension and animosity between those who hold to opposing views regarding the subject of origins Others may ask What do those of opposing views base their beliefs upon Is there any reconciling of the different views The differences I believe in part are due to one's perceptions regarding science and theology This book is not about Christians versus atheists This book is more about

creation versus evolution than about Creationism versus Evolutionism This book is about comparing various views opinions and evidence related to evolution and creation Some of the information being presented may be new to you and may take some time to digest Evolutionists generally view creation in the same way that creationists generally view evolution Opposing views are rarely taken seriously as they are a contradiction to ones own bias Whatever your current views are regarding the origins of the universe and life or level of knowledge of origins this book is about considering various sides of the issue of evolution In this book we will be comparing the evidence and arguments and then weighing the pros and cons in an attempt to determine the validity of each view You will however be left to make your own decisions about each subject that is presented This book may either strengthen your current views of origins or may cause you to re think what you currently believe about origins Whatever your views are regarding the origins of the universe and life this book is about considering various sides of the issue of evolution In this book the evidence and arguments will be presented for the reader to determine the validity of each view Subjects such as the origin of the universe the age of the universe the fossil evidence the possibilities of a global flood the origins of life Stanley Millers Experiment of 1953 the fossils in the strata of the earth the components of evolution Natural Selection Adaptation Mutations Speciation and Genetic Drift Punctuated Equilibrium Haeckels Embryos and Recapitulation Vestiges Pseudogenes Biological Complexity and Intelligent Design Comparing biological similarities and differences between Chimpanzee and human genome Comparing the Human and Ape Fossil Evidence will be examined Multiple top resources of various professions have been included in this book to provide information on the many different subjects discussed Although this book is an in depth study of evolution it was written on the level so that the average teenager or adult will be able to understand what is being presented Difficult words and terms are explained so that you will not need to consult a dictionary every time an unknown word or term appears I attempted to present the subject matter on a level that most people will be able to easily understand The various views and arguments are presented in a manner similar to having a debate The aim of this book is to help either strengthen your current views of origins or cause you to re think what you currently believe It is hoped that at least you will develop a better appreciation for the opposing views and will better understand why those who believe in the opposing views believe as they do I sincerely hope that this book will be beneficial to you whether you are se [A Revolution Is Coming](#) Mark A. Roberts,2013 The author was born in 1950 It was another year of war He was told all his life that nothing can be done about war or the horrors of nuclear weapons and those who would use them Nothing can be done about the poisoning of pristine air and water ignorance poverty starvation crime and greed associated with drugs deforestation religious conflicts racial hatred disease overpopulation The author has concluded that total destruction can be stopped but international law and order must be initiated International law must be instituted and enforced The United Nations must complete its journey of leadership and strength The United Nations must exemplify a non corrupt representative leadership all continents nations and people of the

world community equally represented The present five prong military dictatorship of intimidation must end The time has come for a world community government founded within the United Nations Mankind has proven throughout history that he is incapable of governing himself Will mankind survive Will this manuscript be used by evil men for evil purposes This author believes that only through supernatural intervention will a world community government of long term peace and prosperity prevail divine leadership And I saw a beast coming out of the sea He had ten horns and seven heads with ten crowns on his horns The beast I saw resembled a leopard but had feet like those of a bear and a mouth like that of a lion He who has an ear let him hear Revelations 13
