Alienated Mind:

Ideology and False Consciousness Christopher L. Pines, 1993-07-01 In this book Christopher Pines demonstrates that Karl Marx conceived of ideology as false consciousness. He shows how the different meanings of false consciousness found in the writings of Marx and Engels reflect the influence of the views of the Baconian French Enlightenment and of Hegelian Feuerbachian philosophies. Pines argues that for Marx the diverse senses of false consciousness all generally denote a social consciousness that takes certain false things to be true regarding matters of significance to class divided societies.

The Ontological Foundation of Ethics, Politics, and Law Francesco Belfiore, 2013-03-25 The revised edition of *The Ontological Foundation of Ethics, Politics, and Law* adds new concepts and discusses the views of additional thinkers. The author refers to his basic ontological conception of the human mind or spirit as an evolving conscious triadic entity composed of intellect, sensitivity, and power, each exerting a bidirectional selfish and moral activity. Through this approach, the notions of good, morality, society, and law are derived from the structure and functioning of the mind. It follows that the solutions presented are the results of a discovery and not the consequence of a choice. Otherwise stated, ethics, politics, and law are given an ontological foundation. For each topic considered, Belfiore shows how his thought can reinterpret the views of other philosophers. This new edition, enriched in concepts and quotations, appears as an innovative and highly stimulating contribution to the philosophical branches of ethics, politics, and law and will be of interest to both graduate students and philosophy scholars.

HyperHumanity Mike Hockney, 2013-07-28 Humanity is a single biological species but has split into two different mental species, labelled Mythos and Logos. The Mythos species is driven by emotional stories, not by facts, evidence, or rational arguments. Even scientific materialism is a Mythos, the sensory Mythos which asserts that rational unobservables undetectable by the senses simply cannot exist. The Enlightenment, the Age of Reason, was when Logos, humanity, came to the fore. HyperHumanity is the upgrade of Logos, humanity, that advocates Hyperrationalism. Old Humanity, stuck in its irrational Mythos past, will become extinct. The future is about the new human race, HyperHumanity. Do you belong to the Illuminated Ones, the Shining Ones, the Divine Ones, or are you on your knees to some story book God, an irrational market, or irrational devotion to your physical senses? HyperHumanity is not here to help Old Humanity. It is here to replace it. We are the true human race that which seeks to claim its rightful prize, divinity.
