Sacrificing America's Women Phillip Bretz, 2022-06-28 The author asks if you know anyone or yourself who was diagnosed with breast cancer If so even if they made it the journey probably wasn't one they or you would want to repeat What if it were possible to diagnose breast cancer at an ultra small stage before it had a chance to spread *The Lavender Way* What if you could treat breast cancer successfully in an office setting *Lavender Procedure* in twenty minutes without a single stitch and resume normal activity immediately What if that doctor had cancer free survivors going on seven years out is that a story you want to know about This book was written by a dedicated and pioneering breast cancer surgeon researcher His mantra is to preserve the mind body and spirit of the women who have come to him from all over the world He is the author of America's first large scale breast cancer prevention clinical trial using the drug Tamoxifen It chronicles his life's story from his earliest memories of growing up in the 1950s in Chicago to his modeling career to wrestling a bear a county fair to his high school and college stories then on to medical school and surgical residency and finally his years at Eisenhower Memorial Hospital including operating on First Lady Betty Ford and opening up the first comprehensive breast in the Coachella Valley His research efforts have taken him to the erstwhile Soviet Union Cherbonyl Beijing and a host of other countries where he has been asked to speak This book is entitled *Sacrificing America's Women Part 1* because there is an answer to breast cancer that is being summarily dismissed by an establishment that refuses change and wants to perpetuate the slash poison burn approach as some people say He served as a principal speaker on President Bush's Breast Cancer Panel and served three years as a civilian aboard the Marine Air Ground Combat Center at 29 Palms CA was awarded the Carnegie Medal for an outstanding act of heroism and ran for Congress against Sony Bono He has been recognized for excellence by people at FLIR and awarded two medals of excellence by the then commanding general of the 335th Medical Brigade of the Army He was interviewed by CNN for his

groundbreaking efforts at breast cancer prevention holds a Principal Investigator number with the NCI he testified for the State of California in the proceedings about Tamoxifen and has given a TED TALK Yet through all this effort to help the world's women he was placed on probation by the Medical Board for finding him negligent It was is disappointingly enigmatic where he is prohibited from carrying out the procedure he helped pioneer and that thus far has saved bodies and lives He wants to present his case in the court of public opinion to see if the women of this land after reading about his quest believe justice was carried out or not Did anyone ever ask how the patients were doing treated the Lavender Way Procedure using all FDA approved modalities Sacrificing America's Women Part 2 is the story of how he came up with the idea of using Tamoxifen in a large scale clinical trial and his visits to the erstwhile USSR and Chernobyl the White House and Congressional hearings it's a story that made him feel like James Bond and Huck Finn Oh by the way his idea of using Tamoxifen for prevention was summarily dismissed by many noted researchers The Government spent 68 million based on his idea and Tamoxifen became the first drug to be FDA approved for breast cancer prevention It lowers the risk by 50% At least he got something right to help untold thousands of women around the world to prevent breast cancer It's a story of how your tax dollars are really spent and how disruptive ideas people are dealt with *Reflections on the Work of Colin Wilson* Colin Stanley, 2019-02-14 When the archive of the English philosopher and polymath Colin Wilson 1931-2013 was officially opened at the University of Nottingham UK in the summer of 2011 it was agreed among those present that a conference should be held there to discuss his work In July 2016 the First International Colin Wilson Conference was staged with the Proceedings being published a year later The success of that conference inevitably meant that a second was arranged and held two years later in July 2018 This volume which will be of interest to scholars and fans of Wilson's work in addition to students of philosophy and consciousness studies contains the transcripts of the papers presented on July 6 2018 day one of that second conference Experts scholars and fans from around the globe gathered to hear and present papers on a variety of Wilson related topics ranging from Existentialism to the Occult from Robert Musil to classical music and from Transpersonal Psychology to Transcendental Evolution **Evolutionary Metaphors** David J. Moore, 2019-05-31 Evolutionary Metaphors is an exploration of the many occult esoteric imaginative as well as creative speculations that have resonated around the UFO phenomenon Understanding the phenomena as an archetypal challenge to our cultural limitations the author David J Moore incorporates Colin Wilson's optimistic new existentialism with the recent studies in ufology The book presents a spiritual and philosophical foundation for the creative integration of our consciousness towards anomalous experience It is a call for what Carl Jung called active imagination and Coleridge's poetic imaginative access to the deeper streams of consciousness that which exists below the iceberg By presenting a fresh approach in the inter disciplinary spirit Moore offers a vision into human existence as well as the symbolical realities that aims to integrate our evolutionary minds with a new understanding of reality **Rhythmus** ,1923 *New Orient* ,1923 **The Sceptred Flute** Sarojini Naidu, 1928 **The New Orient**
