Anderson,2011-04-14 In the far future humanity began to search the stars sending out vast spaceships that would take generations to reach their goals In the depths of space they encountered the Ildiran empire apparently the galaxy s only other intelligent civilization The Ildirans came to Earth and passed on the knowledge of their stardrive allowing humanity to expand to the stars Almost two hundred years after that first contact there are human colonies proliferating through the galaxy As Mankind seizes the future danger comes from the past for two human archaeologists glean forbidden knowledge from the ruins of a dead world Once the insect like Klikiss ruled the stars Now only their robot servants remain guardians of a terrible technology the Klikiss Torch which has the power to create suns Now Humanity prepares to flex its new found muscle and activate the Torch for the first time in millennia but there are reasons

the Klikiss empire fell and a train of events is about to be set in motion that will change the universe

Forest Imaginaries Ainehi Edoro, 2026-01-20 Forests in fiction are often understood simply as settings symbols or remnants of a premodern past Yet many African novelists have turned to the forest to experiment with worldbuilding and to imagine new futures This groundbreaking book explores the life of the forest in African fiction showing how writers have used it to reinvent the novel s formal aesthetic and political possibilities Ainehi Edoro argues that forests in African fiction are laboratories for unmaking and remaking the world where writers break apart familiar forms to test alternate forms of life knowledge and power Instead of treating the forest as a backdrop these writers imagine it as a living structure a space where politics history myth violence technology the magical and creativity animate fictional worlds Spanning indigenous African narratives and contemporary science fiction *Forest Imaginaries* traces the lineage of forest worlds in African literature Chinua Achebe s evil forest the cosmic forest in *W le y nk s* mythic imagination Thomas Mofolo s forest of imperial dreams Amos Tutuola s endless fractal forest and Nnedi Okorafor s aquatic forest of new ecological futures This book rethinks African literary history by showing how African writers draw on the forest and the wealth of Indigenous ideas about time space and storytelling it conjures to transform the novel s aesthetic political and philosophical horizons
