written in the now universal field of women's studies. Ammerman, Michel Hersen, 1992-05-28. Almost every clinician at some time faces the challenge of evaluating individuals and families involved in domestic violence. This invaluable sourcebook provides the kind of comprehensive understanding of epidemiological models, intervention planning, and standards of practice that will help practitioners address the causes, effects, future risks, problems, and issues that arise in a variety of family violence situations. Edited by the expert team responsible for *Treatment of Family Violence* and written by leading figures in the field, *Assessment of Family Violence* takes stock of over a decade of research and examines the strategies and measures that are vital to the effective assessment of family violence, both in terms of treatment planning and legal requirements. *Assessment of Family Violence* provides authoritative coverage of the assessment, clinical, and legal issues involved in dealing with family violence, epidemiology of family violence involving both children and adults, types of family violence including child abuse and neglect, incest, wife battering, elder abuse and neglect, and psychological abuse of women, and special issues in the field including recently recognized areas of maltreatment such as child witnesses of marital violence, adolescent perpetrators of incest, and adult survivors of incest. Rich in descriptive material, assessment approach, analyses, legal considerations, case illustrations, and invaluable practical guidelines, *Assessment of Family Violence* is an interdisciplinary and cross-theoretical treasury for concerned clinicians, counselors, social workers, and legal professionals. [Encyclopedia of Community Policing and Problem Solving](#) Kenneth J. Peak, 2013-05-28. Community policing as a philosophy supports the systematic use of partnerships and problem-solving techniques to proactively address the immediate conditions that give rise to public safety issues, including crime, social disorder, and fear of crime, as opposed to responding to crime after it occurs. Community policing expands the traditional police mandate. It broadens the focus of fighting crime to include solving community problems and forming partnerships with people in the community so average citizens can contribute to the policing process. Originating during police reform efforts of the 1970s, the philosophy of community policing is currently widespread and embraced by many citizens, police administrators, scholars, and local and federal politicians. What sorts of collaborative partnerships have evolved between policing agencies and the individuals and communities they serve? How do police departments engage in systematic examination of identified problems to develop effective responses? How have police departments aligned their organizational structures to best support community partnerships and proactive problem-solving? Just how effective have efforts at community policing been? These questions and more are explored within the pages of this new reference work. Features: A collection of 150 to 175 entries are organized in A to Z fashion in one volume available in both electronic and print formats. Signed entries authored by significant figures in the field, each conclude with Cross-References and

Suggestions for Further Readings to guide students to in depth resources Brief What Works case studies within appropriate entries profile community policing programs and strategies as tried in various cities and communities Although organized in A to Z fashion a thematic Reader s Guide in the front matter groups related entries by broad topic areas e g Foundations Methods Legislation Changing Agency Culture Planning Training Assessment etc Also included in the front matter a Chronology provides students with historical perspective of the development of community policing The entire work concludes with a Resources appendix listing classic books journals and associations followed by a comprehensive Index
