Prominent experts present effective ways to reduce couple distress, improve overall relationship satisfaction, and address specific relational or individual problems. Greenberg, 2017-09-07 With all of the expert authored content that made previous editions indispensable references for students and practitioners alike, this third edition of *The Art and Science of Brief Psychotherapies: A Practitioner's Guide* has been updated to reflect this rapidly changing field. Most chapters include new material that documents recent developments within existing models, and new chapters tackle topics that include the following: Multicultural practice, Mentalizing, Motivational interviewing, Dialectical behavior therapy, Telepsychiatry, Internet based interventions.
