Early Barrow Diggers:

The Early Barrow Diggers Barry M. Marsden, 2011-03-01 [The Ancient Burial-mounds of England](#) L.V. Grinsell, 2014-10-24 First published in 1936 and rewritten in 1953 this book embodies the results of the author's extensive researches and fieldwork Part one considers types of barrows and dating their building and the cult of the dead from Palaeolithic to Saxon times A chapter is dedicated to maps and another to fieldwork in particular while the final bit of the introductory material discussed barrow digging from the time of the Romans to the twentieth century Part two is the regional surveys from Cornwall to Kent and northwards to the Scottish border [Close to the Edge: Excavations of Five Cornish Coastal Barrows](#) Andy M. Jones, 2024-12-12 A report of recent excavation of five Early Bronze Age barrows undertaken by Cornwall Archaeological Unit All are complex monuments revealing episodes of remodelling and reuse Despite being broadly comparable with similar radiocarbon determinations there are major differences in both the form and intensity of activity between the barrows **Men Among the Mammoths** A. Bowdoin Van Riper, 1993-11 Van Riper recreates scientists first arguments for human antiquity placing these debates within the context of Victorian science Using field notes scientific reports and previously unpublished letters he shows also how the study of human prehistory brought together geologists archeologists and anthropologists in their first interdisciplinary scientific effort A vivid account of how the discovery of human antiquity forced Victorians to redefine their assumptions about human evolution and the relationship of science to Christianity **Soils Stones and Symbols Cultural Perceptions of the Mineral World** Nicole Boivin, 2013-07-04 Ethnographic and archaeological records feature a rich body of data suggesting that understandings of the mineral world are in fact both culturally variable and highly diverse *Soils Stones and Symbols* highlights studies from the fields of anthropology archaeology and philosophy that demonstrate that not all individuals and societies view minerals as commodities to be exploited for economic gain or as passive objects of disembodied scientific enquiry In visiting such diverse contexts as contemporary India colonial period Australia and prehistoric Europe and the Americas the papers in this volume demonstrate that in pre industrial societies minerals are often symbolically meaningful ritually powerful and deeply interwoven into not just economic and material but also social cosmological mythical spiritual and philosophical aspects of life In addressing the theme of the mineral world this book is not only unique within the social and geo sciences but also at the forefront of recent attempts to demonstrate the importance of materiality to processes of human cognition and sociality It draws upon theoretical developments relating to meaning experience the body and material culture to demonstrate that studies of rock art landscapes architecture technology and resource use are all linked through the minerals that constantly surround us and are the focus of our never ending attempts to understand and transform them **People of the Long Barrows** Martin Smith, Megan Brickley, 2009 This volume looks at the history of the study of human remains and how new scientific techniques have massively expanded what we know about our Neolithic ancestors *Yorkshire Archaeological and*
