individual animals living the good life after rescue and rehabilitation Farmed animals all have stories to tell but few get the chance to do so this book amplifies the voices of those who have been able to reclaim basic rights in a human dominated world with their stories providing insight into the uniqueness of every pig cow bird rabbit and more intended for our plates and others for companionship or sheer joy This book will be of interest to those studying or working in animal ethics welfare and law veterinary science running a farmed animal sanctuary or simply seeking to understand more about the animals with whom we share this planet
