

Bombers Moon

Lei Huang

Bombers Moon:

Under a Bomber's Moon Stephen Harris, 2011-01-11 They were the best of enemies dedicated skilled and deadly In the night skies above wartime Germany an RAF navigator air bomber from New Zealand and a Luftwaffe pilot seek out their targets testing the gap between success and their own destruction as they cross each other's paths The odds are heavily against either of them making it through the war but as this sobering realisation displaces their initial exuberant sense of adventure both come to see in their youthful sacrifice the survival of all they hold dear UNDER A BOMBER'S MOON reaches across the divide of years of geography of nationality to tell their story largely in their own words describing both the breathtaking clashes in the air and the camaraderie humour patriotism and personal tragedies that became their war Stephen Harris began his journey of discovery because he wanted to know the truth of his great uncle Colwyn Jones's fate With Col's vividly written letters and diary as a starting point he set out to discover what really happened on the night Col's extraordinary luck ran out Little did he know that his quest would lead him to a meeting with a former Luftwaffe pilot who was pitted against his great uncle in the skies over Germany Otto Heinrich Fries proved to be both engaging and articulate eventually allowing Harris to tell his story in this book The result is a unique and personal account of two highly successful airmen from opposing sides

Drawing Hell J P Morthen, 2025-08-26 From the sweltering battlefields of the South Pacific to the devastated cities of Europe Alan Moore witnessed the greatest war in human history not with a rifle but with a paintbrush As an official war artist with the RAAF Moore was sent deep into the action capturing history as it unfolded He documented the brutal Japanese counterattack at Los Negros Island the perilous missions of airmen dodging flak over Eastern Europe and the harrowing reality inside one of Nazi Germany's most infamous concentration camps With his camera sketchbook and oil paints he recorded not just battles but the human cost of war the exhaustion the fear the destruction and the small moments of resilience that defined a generation Yet despite his remarkable body of work Alan Moore remains one of Australia's forgotten artists His paintings raw and unfiltered serve as powerful reminders of the horrors of war ensuring that the sacrifices of those who served are never lost to history Through meticulous research and rare archival materials *Drawing Hell* unearths the story of a man whose work still hangs in some of the world's most prestigious museums and galleries Moore's life spanned a century of conflict change and artistic evolution yet his story has remained largely untold until now In this gripping account historian John Morthen brings Moore's legacy back into the spotlight revealing how his art shaped the way we remember war For those who believe history should never be forgotten *Drawing Hell* is an essential read

Bombers Philip Kaplan, 2000 The crews of the Lancasters Halifaxes Mosquitoes the Fortresses Liberators and Marauders and for that matter the Heinkel 111s the Junkers 88s the Mitsubishis and the Savoia Marchettis had some of the most thankless and most dangerous jobs of all those who fought in the Second World War For the most part they performed them with courage skill and determination Few had chosen their role many disliked it but most believed it was necessary for the cause they fought for The majority were young in their teens or early twenties often too young to vote for their government but never too young to die for their country This book is an account largely in their own words of what these men and their successors who flew in Korea Vietnam the Gulf and elsewhere experienced flying five to six miles above the earth deep into enemy territory and then returning to a short interlude of comparative normality at home before contemplating the next briefing the next mission Unlike many other combatants they had little control over their own fate there are no foxholes in which to take cover in the sky 99 of the projectiles fired at their aircraft might burst in harmless puffs of smoke the hundredth might tear a wing off or riddle their body with shrapnel The fighters that preyed upon them could soar and jink like hawks while they had to fly straight and level holding formation by day alone and vulnerable by night Amazon com
