Of Signs:

Augustine's Theory of Signs, Signification, and Lying Remo Gramigna, 2020-01-20 The aim of this study is to present as far as possible a general description of the theory of the sign and signification in Augustine of Hippo 354 430 AD with a view to its evaluation and implications for the study of semiotics Accurate studies for subject discipline and significance have not yet given an organic and systematic vision of Augustine's theory of the sign The underlying aspiration is that such an endeavour will prove to be beneficial to the scholars of Augustine's thought as well as to those with a keen interest in the history of semiotics The study uses Augustine's own accounts to investigate and interpret the philosophical problem of the sign The focus lies on the first decade of Augustine's literary production The *De dialectica* is taken as the terminus ad quo of the study and the *De doctrina christiana* is the terminus ad quem The selected texts show an explicit engagement with poignant discussion on the nature and structure of the sign the variety of signs and their uses Although Augustine's intention never was to establish a theory of meaning as an independent field of study he largely employed a theory of signs Thus Augustine's approach to signs is intrinsically meaningful

Process Philosophy of Signs James Williams, 2016-02-02 We usually think of signs as fixed relations a red light signifies Stop In his bold new book James Williams argues that signs are processes you see the red light and think should I stop triggering a creative response Williams develops this new process philosophy of signs through a formal model in contrast to earlier structuralist definitions He draws on the philosophies of Deleuze and Whitehead criticises earlier work on the sign in biology by Jakob von Uexkull and connects to contemporary work on process in the philosophy of biology by John Dupre The process model has wide applications in the arts humanities and social sciences and informs their critical debates with science In defining the sign as essentially political this radical definition of the sign opens up new possibilities for social and political critique
