Dimensions Of Register Variation A Cross Linguistic Comparison:

Dimensions of Register Variation Douglas Biber,1995-08-31 Douglas Biber's new book extends and refines the research and methodology reported in his ground breaking *Variation Across Speech and Writing* CUP 1988 In *Dimensions of Register Variation* he gives a linguistic analysis of register in four widely differing languages English Nukulaelae Tuvaluan Korean and Somali Using the multi dimensional analytical framework employed in his earlier work Biber carries out a principled comparison of both synchronic and diachronic patterns of variation across the four languages Striking similarities as well as differences emerge allowing Biber to predict for the first time cross linguistic universals of register variation This major new work will provide the foundation for the further investigation of cross linguistic universals governing the pattern of discourse variation across registers and will be of wide interest to any scholar interested in style register and literacy

Dimensions of Register Variation Douglas Biber,2006-02-13 Douglas Biber's new book extends and refines the research and methodology reported in his ground breaking *Variation Across Speech and Writing* 1988 and adds for the first time a diachronic dimension In it he gives a linguistic analysis of register in four widely differing languages English Nukulaelae Tuvaluan Korean and Somali Striking similarities as well as differences emerge allowing Biber to predict for the first time cross linguistic universals of register variation

Multi-Dimensional Analysis Tony Berber Sardinha,Marcia Veirano Pinto,2019-03-21 *Multi Dimensional Analysis Research Methods and Current Issues* provides a comprehensive guide both to the statistical methods in Multi Dimensional Analysis MDA and its key elements such as corpus building tagging and tools The major goal is to explain the steps involved in the method so that readers may better understand this complex research framework and conduct MD research on their own Multi Dimensional Analysis is a method that allows the researcher to describe different registers textual varieties defined by their social use such as academic settings regional discourse social media movies and pop songs Through multivariate statistical techniques MDA identifies complementary correlation groupings of dozens of variables including variables which belong both to the grammatical and semantic domains Such groupings are then associated with situational variables of texts like information density orality and narrativity to determine linguistic constructs known as dimensions of variation which provide a scale for the comparison of a large number of texts and registers This book is a comprehensive research guide to MDA

Register, Genre, and Style Douglas Biber,Susan Conrad,2019-05-16 A brand new edition of this flagship work that provides detailed descriptions of important text varieties in English along with methodological techniques to carry out analyses

The Register-Functional Approach to Grammatical Complexity Douglas Biber,Bethany Gray,Shelley Staples,Jesse Egbert,2021-12-30 This collection brings together the authors previous research with new work on the Register Functional RF approach to grammatical complexity offering a unified theoretical account for its further study The book traces the development of the RF approach from its foundations in two major research strands of linguistics the study of sociolinguistic variation and the text linguistic study of register variation Building on this

foundation the authors demonstrate the RF framework at work across a series of corpus based research studies focused specifically on grammatical complexity in English The volume highlights early work exploring patterns of grammatical complexity in present day spoken and written registers as well as subsequent studies which extend this research to historical patterns of register variation and the application of RF research to the study of writing development for L1 and L2 English university students Taken together along with the addition of introductory chapters connecting the different studies the volume offers readers with a comprehensive resource to better understand the RF approach to grammatical complexity and its implications for future research The volume will appeal to students and scholars with research interests in either descriptive linguistics or applied linguistics especially those interested in grammatical complexity and empirical corpus based approaches
