*Dimensions of the future;*, 1968      *Dimensions of the Future* Marvin Kessler, Bernard Brown, 1968      *Dimensions of the Future: Alternatives for Tomorrow* Maxwell H. Norman, 1974      **The Future of Christology** Dong-Kun Kim, 2019-06-28

The Future of Christology addresses the questions that Christology currently faces and or will face in the future in 12 topics The book consists of two parts In the first part Kim deals with five topics related to traditional Christology while in the second part he wrestles with seven topics related to issues of Christology The twenty first century is a challenging time for Christianity Many in our age are asking what Jesus Christ means in various dimensions of history culture nature and even beyond the Earth Changes in values worldviews and views of the universe are forming a new zeitgeist Dong Kun Kim argues that ways of understanding Christ should change accordingly for a Christology that fails to communicate meaningfully with the times is void of vitality Postmodernism dehistoricization and life post ideology multiculturalism multiple religions and above all the rapid development of the natural sciences pose a serious challenge to traditional Christology Who is Christ in the age of an infinite cosmos How do daily human life social devotion and praxis relate to salvation How can we discuss salvation history in an era post history Where does Christ stand in the public sphere Can the Chalcedonian definition of the two natures of Christ true God and true human being encompass nature and the cosmos would a third nature of Christ be necessary Will the cyborg which may appear in the near future be the object of Christ s salvation If scientific determinism becomes popular in the future will the basis of faith in Christ lose ground If intelligent life exists in the universe what does Christ mean to such life This book provides innovative answers to these questions in an academic context      *Kytos* John Von Kesmark, 2008 The second book in The Rathings Chronicles trilogy *Kytos The Dark Beyond* covers events in Britain in 2078 The half rat half human Rathings rule with an iron fist but have to rely on press ganged humans to run the country and the economy which is crumbling due to trade and travel embargoes imposed by the rest of the world The Rathings are just one of the breeds of hybrid mutants let loose on the world as a result of The Kytos Project a genetic engineering hybrid cloning programme almost 60 years earlier A disillusioned and altruistic Rathings General and a cabal of senior officers plan to overthrow their government and launch an invasion initially into Europe and then further afield with a view to conquering the world By accepting the assistance of an amoral Rathings Senator from the parallel future dimension the General unknowingly takes the first step to being manipulated by the duplicitous Senator who has his own dark agenda With unrest mounting amongst the Rathings military and elite a showdown between government forces and rebel troops is inevitable An epic battle eventually takes place between the two factions The losing General is captured and executed in a barbaric manner Meanwhile a young human called Ashok is laying down his own battle plans He wants to destroy the Rathings before they mature from their embryonic stage as he holds them responsible for the death of his parents The only way he can do so is to return to the past through a Time Gate and persuade the scientist who created the clones to stop his experiment But his

plans are dashed at every turn and his determination to stop the creation of the clones puts two friends lives in mortal danger And there s the mystery surrounding the assassination of dozens of Rathings A small mound of residual molecular dust left at each of the crime scenes is a tell tale sign that the killers may be etheric beings from another dimension The pressure is on Rathing investigators to catch these shadow souls before they murder more of their kinsfolk With Rathing and human lives in peril the challenges Ashok and the General must overcome change each of their lives forever **American Machinist**

Roger White,2015-10-23 Economic globalization is the process of increased integration among nations characterized and fostered by three elements of international trade goods and services international capital flows and international migration In recent decades international economic integration has increased both in depth more pronounced bilateral connections and in breadth connections have become more commonplace thus the global economy has become increasingly integrated Societies receive tremendous net benefits from economic globalization however accessing these benefits may be limited by cross societal cultural differences This book examines cultural differences as a potential impediment to economic integration Relying on rigorous statistical and econometric techniques the analyses indicate that higher transaction costs due to greater cultural distance inhibit both the volume of trade flows and the successful completion of trade deals Cultural distance appears to reduce foreign direct investment as well as divert investment to less culturally distant destinations This book finds a negative relationship between migration flows and cultural distance It considers the common criticism that repeated and intensified integration diminishes cultural differences resulting in cultural homogeneity This book offers the first comprehensive examination of the relationships between cross societal cultural differences and economic globalization It will be of great interest to scholars and students who study globalization international economics and cultural studies
