Dimensions Charles Willard Moore, Gerald Allen, 1976 **Housing and Planning References**, 1977 Architectural Record, 1978 Housing and Planning References United States. Department of Housing and Urban Development. Library, 1977 Modern Architectural Theory Harry Francis Mallgrave, 2009-07-13 Modern Architectural Theory is the first book to provide a comprehensive survey of architectural theory primarily in Europe and the United States during three centuries of development In this synthetic overview Harry Mallgrave examines architectural discourse within its social and political context He explores the philosophical and conceptual evolution of its ideas discusses the relation of theory to the practice of building and most importantly considers the words of the architects themselves as they contentiously shaped Western architecture He also examines the compelling currents of French rationalist and British empiricist thought radical reformation of the theory during the Enlightenment the intellectual ambitions and historicist debates of the nineteenth century and the distinctive varieties of modern theory in the twentieth century up to the profound social upheaval of the 1960s Modern Architectural Theory challenges many assumptions about architectural modernism and uncovers many new dimensions of the debates about modernism *Architectural Regionalism* Vincent B. Canizaro, 2012-03-20 In this rapidly globalizing world any investigation of architecture inevitably leads to considerations of regionalism But despite its omnipresence in contemporary practice and theory architectural regionalism remains a fluid concept its historical development and current influence largely undocumented This comprehensive reader brings together over 40 key essays illustrating the full range of ideas embodied by the term Authored by important critics historians and architects such as Kenneth Frampton Lewis Mumford Sigfried Giedion and Alan Colquhoun Architectural Regionalism represents the history of regionalist thinking in architecture from the early twentieth century to today **What a Building Does** Phillip Cox, Niall Cronin, 2025-09-30 Hoosier architect Evans Woollen 1927-2016 made a profound contribution to the built identity of Indianapolis Indiana Most recognized for introducing concrete Brutalism to the city his practice was in fact surprisingly diverse ranging from significant public buildings that are today some of the city's most iconic structures to humble churches single family homes and historic renovations Some loved his emphatic proudly modern buildings while others found them challenging severe or even ugly but all agreed they were boundary pushing the handiwork of an iconoclastic architect on the cutting edge of contemporary design Surveying the full breadth of Woollen's six decade career What a Building Does tells the complete story of this essential Midwestern practitioner for the first time from his early years as a student of Philip Johnson and Louis Kahn to his decision to open his practice in Indianapolis to his later professional successes across Indiana and beyond With a focus on ten of Woollen's most important built works this book explores the dynamic ideas which shaped his architecture and the complex relationship he held with Indianapolis his hometown Most significantly it also discovers a multi decade practice of empathetic human centered design conducted long before such ideas were mainstream Featuring nearly

150 new full color photos never before seen archival material and dozens of interviews with former colleagues clients and friends What a Building Does expands the narrative of modern architecture and its legacy in the American Midwest

Offramp Alan Loomis, Tricia Sanedrin, Yuval Yasky, 2000-03 The latest issue of Offramp a journal produced by the Southern California Institute of Architecture SCI Arc uses a series of essays conversations and projects to investigate the numerous opportunities that architectural practitioners have created for themselves given that design is undervalued and often invisible in our society Some of the voices presented in this collection are ADOBE LA a design group whose work addresses the Latino American communities in Los Angeles Sam Mockbee who founded Rural Studio in Hale County Alabama Chip Minnick whose project Nike Shelter imagines an intimate partnership between architects and global corporations HEDGE Design Collective a group of young practitioners organized in a collaborative structure in order to pool resources and create ever changing project teams and Jonathan Hill whose idea of the Illegal Architect subverts the codes and conventions of the profession by claiming that occupying architecture can be an act of design in its own right Once Upon an American Dream Andrew Lainsbury, 2000 Branded a cultural Chernobyl and the tragic kingdom the Euro Disney Resort has been on its own thrill ride since opening in 1992 The much publicized version of the Magic Kingdom gave Europeans alcohol free mocktails surly employees even colors too muted for the Disney image Facing financial disaster was it any wonder that Disney execs found themselves wishing upon a star for answers After so many knee jerk criticisms of Euro Disney this book combines firsthand experience and research to shed new light on claims that the park is nothing more than a form of American cultural imperialism Andrew Lainsbury a former Euro Disney employee who knows what the park meant to its visitors goes beyond media bites and academic scorn to examine Europe s love hate relationship with Euro Disneyland and some of the undiscussed issues surrounding it Once Upon an American Dream is a story of global capitalism on a grand scale Lainsbury has plumbed company archives and interviewed key players to give readers the real view from Le Chateau de la Belle au Bois Dormant Sleeping Beauty s Castle He cracks open the Euro Disney controversy to reveal the park not as a tragic experiment in exporting American culture but the result of European efforts to import a popular form of American entertainment Lainsbury tells how the Walt Disney Company came to build a European park and locate it in France how political negotiations affected its design and development how it was promoted to continental audiences and what caused its widely publicized financial woes before being rescued by a real prince from Saudi Arabia He reveals what it took to win back the hearts of skeptical Europeans such as serving wine selling flashy merchandise and placating disgruntled workers Finally he looks into the magic mirror to speculate on the role of Euro Disney and the Walt Disney Company in the twenty first century Ultimately Lainsbury shows that cultural imperialism is not an exclusively American phenomenon but a global corporate strategy and that global corporatism by needing to be responsive to consumers is so complex that it may not be as monolithic as feared Once Upon an American Dream is a fairy tale for our times reminding us that for all the critical huffing

and puffing the creation and marketing of pleasure is what Euro Disneyland is all about **L.A. Lost & Found** Sam Hall Kaplan,2000 **AIA Journal** American Institute of Architects,1980 **Harvard Design Magazine** ,2000 Architecture Series: Bibliography ,1988 On the Improvement of Design Judgement Arthur E.
