Dina's Book Herbjørg Wassmo, 1994 The story of a tempestuous woman married off at an early age to an old man When he abruptly dies she takes over his estate and begins bending people to her will The setting is 19th century Norway

**Dina's Book** Herbjørg Wassmo, 2011-12-12 Set in Norway in the mid nineteenth century Dina s Book presents a beautiful eccentric and tempestuous heroine who carries a terrible burden at the age of five she accidentally caused her mother s death Blamed by her father and banished to a farm she grows up untamed and untaught No one leads the child through her grief and the accident remains a gruesome riddle of death with Dina left haunted by the vindictive spirit of her mother When her father agrees to take her back after several years his efforts to cultivate her have little lasting effect Tamed only by her tutor who is able to reach her through music and draw out her gift for mathematics Dina remains private and closely guarded while her unconventional behavior and erotic power enchant and ensnare those around her At age sixteen she is married off to Jacob a wealthy fifty year old landowner who later dies under odd circumstances Wrestling with her two unappeased ghosts Dina becomes mute and then emerges from her shock to run Jacob s estate with an iron hand until one day a mysterious stranger the Russian wanderer Leo enters her life and changes it forever The Norseman, 1995 **Seeing**

**through Multilingual Corpora** Stig Johansson, 2007-02-14 Through electronic corpora we can observe patterns which we were unaware of before or only vaguely glimpsed The availability of multilingual corpora has led to a renewal of contrastive studies We gain new insight into similarities and differences between languages at the same time as the characteristics of each language are brought into relief The present book focuses on the work in building and using the English Norwegian Parallel Corpus and the Oslo Multilingual Corpus Case studies are reported on lexis grammar and discourse A concluding chapter sums up problems and prospects of corpus based contrastive studies including applications in lexicography translator training and foreign language teaching Though the main focus is on English and Norwegian the approach should be of interest more generally for corpus based contrastive research and for language studies in general Seeing through corpora we can see through language **Norwegian Literature**, 1995 Patterns in Contrast Jarle Ebeling, Signe

Oksefjell Ebeling, 2013-09-17 Combining the fields of phraseology and contrastive analysis this book describes how patterns defined as recurrent word combinations with semantic unity behave cross linguistically As the contrastive approach adopted in the book relies on translations and a bidirectional corpus model the first part offers an in depth discussion of contrastive linguistics with special emphasis on using translations as tertium comparationis and a parallel corpus as the main source of material Central to the contrastive analysis is the use of corpus linguistic methods in the identification of patterns while a deeper understanding of the phraseological nature of the patterns is closely related to the concept of extended units of meaning The second part of the book presents five case studies using an easy to follow step by step method to illustrate the phraseological contrastive approach at work The studies show that patterns weave an intricate web of meanings across

languages and demonstrate the potential of exploring patterns in contrast
