Dining Room:

The Dining Room Albert Ramsdell Gurney, 1982 THE STORY The play is set in the dining room of a typical well to do household the place where the family assembled daily for breakfast and dinner and for any and all special occasions The action is comprised of a mosaic of interrelated scenes

An Archaeology of Improvement in Rural Massachusetts Quentin Lewis, 2015-11-25 This book probes the materiality of Improvement in early 19th century rural Massachusetts Improvement was a metaphor for human intervention in the dramatic changes taking place to the English speaking world in the 18th and 19th centuries as part of a transition to industrial capitalism The meaning of Improvement vacillated between ideas of economic profit and human betterment but in practice Improvement relied on a broad assemblage of material things and spaces for coherence and enactment Utilizing archaeological data from the home of a wealthy farmer in rural Western Massachusetts as well as an analysis of early Republican agricultural publications this book shows how Improvement's twin meanings of profit and betterment unfolded unevenly across early 19th century New England The Improvement movement in Massachusetts emerged at a time of great social instability and served to ameliorate growing tensions between urban and rural socioeconomic life through a rationalization of space Alongside this rationalization Improvement also served to reshape rural landscapes in keeping with the social and economic processes of a modernizing global capitalism But the contradictions inherent in such processes spurred and buttressed wealth inequality ecological distress and social dislocation
