Dinosaur Island:

Pirates on Dinosaur Island Mark Edwards, 2012 Dr Christopher Lemuel becomes a ship's doctor on a privateer to escape England after shamefully killing a man in a matter of honor. The Dinosaur Filmography Mark F. Berry, 2015-08-31 From classics like King Kong to beloved B movies like The Beast from 20,000 Fathoms to blockbusters like Jurassic Park, it's easy to see that filmmakers and audiences alike love to see dinosaurs on the screen. This comprehensive filmography, arranged alphabetically by title, contains entries that include basic facts, year of release, country of origin, studio, and running time, followed by a concise plot summary, the author's critical commentary, information on the production, and the people behind it, and secrets of the often ingenious special effects. Three useful appendices feature films with minor dinosaur content, planned but unfinished dinosaur movies, and the quasi-dinosaurs of Toho Studios. To be included, a movie must depict one or more representations of a prehistoric reptile. Inaccurate portrayals are included as long as the intent is to represent a real or fictional dinosaur. Not eligible are films featuring prehistoric mammals, prehistoric humans, or humanoids, and beasts of mythology, unless of course the movie also has a dinosaur.
