G. Ramcharan, 2008 The concept practice and achievements of preventive diplomacy at the UN **Chinese Diplomacy and the UN Security Council** Joel Wuthnow, 2013 China has emerged in the 21st century as a sophisticated and sometimes contentious actor in the United Nations Security Council This is evident in a range of issues from negotiations on Iran's nuclear program to efforts to bring peace to Darfur Yet China's role as a veto holding member of the Council has been left unexamined How does it formulate its positions What interests does it seek to protect How can the international community encourage China to be a contributor and not a spoiler This book is the first to address China's role and influence in the Security Council It develops a picture of a state struggling to find a way between the need to protect its stakes in a number of rogue regimes on one hand and its image as a responsible rising power on the world stage on the other Negotiating this careful balancing act has mixed implications and means that whilst China can be a useful ally in collective security it also faces serious constraints Providing a window not only into China's behaviour but into the complex world of decision making at the UNSC in general the book covers a number of important cases including North Korea Iran Darfur Burma Zimbabwe Libya and Syria Drawing on extensive interviews with participants from China the US and elsewhere this book considers not only how the world affects
