A modern coming of age full of love desperation heartache and magic Andrew Sean Greer Pulitzer Prize winning author about the ways in which family grief love queerness and vulnerability all intersect Kristen Arnett New York Times bestselling author Perfect for fans of The Perks of Being a Wallflower and The Thirty Names of Night Though Owen Tanner has never met anyone else who has a chatty bird in their chest medical forums would call him a Terror From the moment Gail emerged between Owen's ribs his mother knew that she had to hide him away from the world After a decade spent in hiding Owen takes a brazen trip outdoors in the middle of a forest fire and his life is upended forever Suddenly Owen is forced to flee the home that had once felt so confining and hide in plain sight with his uncle and cousin in Washington There he feels the joy of finding a family among friends of sharing the bird in his chest and being embraced fully of falling in love and feeling the devastating heartbreak of rejection before finding a spark of happiness in the most unexpected place of living his truth regardless of how hard the thieves of joy may try to tear him down But the threat of the Army of Acronyms is a constant looming presence making Owen wonder if he'll ever find a way out of the cycle of fear A heartbreaking yet hopeful novel about the things that make us unique and lovable The Boy with a Bird in His Chest grapples with the fear depression and feelings of isolation that come with believing that we will never be loved let alone accepted for who we truly are and learning to live fully and openly regardless

Birds and Cages Ida Tomshinsky, 2019-03-16 We are not afraid to say that we are fascinated by birds Flying birds always provoke human admiration There is this unexplained mysterious feeling that surrounds us when watching birds on the forest trees in our backyard at the ocean sea or lake Birds are an infinite treasure of inspiration for humans waking us up in the morning with beautiful birdsongs Their little brain is of a size of an unshelled walnut and is associated with intelligent behavior and the same capabilities of humans and apes mental tasks When you think about all the animals in the world you quickly realize that birds are in fact among some of the most intelligent creatures we have on earth Although there are more than ten thousand bird species worldwide only a handful of them have made the list for the extremely talented and incredibly intelligent So who are these super intelligent feathered friends It is difficult to pick one Perhaps kea ravens and crows are equally smart while macaws cockatoo and jays are on the top of any list too Who knew that an African gray is capable of working out the location of hidden food by using the kind of deduction and elimination skills previously seen only in humans and apes And as you probably have heard they are exceptional talkers Today we all know that it is bad to imprison birds in cages but it was not always the case throughout the history According to Stephen King Some birds are not meant to be caged that's all Their feathers are too bright their songs too sweet and wild Due to beautiful poetry and cultural expressions the flying bird became a symbol of freedom and independence There are cases of historic acknowledgment of birdcages especially in the Victorian era People were listening to birdsongs in cages as it was their radio
