Challenge Of Democ99 2000 Update W Cd:

Challenges for the Democratisation Process in Tanzania Jonas Ewald,2013 Tanzania has been independent in 2011 for 50 years While most neighbouring states have gone through violent conflicts Tanzania has managed to implement extensive reforms without armed political conflicts Hence Tanzania is an interesting case for Peace and Development research This dissertation analyses the political development in Tanzania since the introduction of the multiparty system in 1992 with a focus on the challenges for the democratisation process in connection with the 2000 and 2005 elections The question of to what extent Tanzania had moved towards a consolidation of democracy is analysed by looking at nine different institutions of importance for democratisation grouped in four spheres the state the political civil and economic society Focus is on the development of the political society and the role of the opposition in particular The analysis is based on secondary and primary material collected between September 2000 to April 2010 The main conclusion is that even if the institutions of liberal democracy have gradually developed in practice single party rule has continued manifested in the 2005 election when the CCM won 92% of seats Despite impressive economic growth poverty remains deep and has not been substantially reduced On a theoretical level this brings the old debate between liberal and substantive democracy back to the fore Neither the economic nor the political reforms have brought about a transformation of the political and economic system resulting in the poor majority gaining substantially more political influence and improved economic conditions Hence it is argued that the interface between the economic political and administrative reforms has not been sufficiently considered in the liberal democratic tradition Liberal democracy is necessary for a democratic development but not sufficient for democracy to be consolidated For that a substantive democratic development is necessary

Challenges for the Democratisation Process in Tanzania Jonas Ewald,2013-07-24 Tanzania has been independent in 2011 for 50 years While most neighbouring states have gone through violent conflicts Tanzania has managed to implement extensive reforms without armed political conflicts Hence Tanzania is an interesting case for Peace and Development research This dissertation analyses the political development in Tanzania since the introduction of the multiparty system in 1992 with a focus on the challenges for the democratisation process in connection with the 2000 and 2005 elections The question of to what extent Tanzania had moved towards a consolidation of democracy is analysed by looking at nine different institutions of importance for democratisation grouped in four spheres the state the political civil and economic society Focus is on the development of the political society and the role of the opposition in particular The analysis is based on secondary and primary material collected between September 2000 to April 2010 The main conclusion is that even if the institutions of liberal democracy have gradually developed in practice single party rule has continued manifested in the 2005 election when the CCM won 92% of seats Despite impressive economic growth poverty remains deep and has not been substantially reduced On a theoretical level this brings the old debate between liberal and substantive democracy back to the fore Neither the economic nor the political reforms have

Tampering with Tradition Peter Bogason, Sandra Kensen, Hugh Theodore Miller, 2004-01-01 Scholars of politics are comfortable theorizing about the parliamentary process and individual political parties but they are often guilty of ignoring the role of individual citizens except through opinion polls and voting statistics Even at the local level the main focus of political theorists has traditionally been on formal systems of government usually lauding representative democracy as the standard for Western government while the importance of participatory action at a local level has been vastly underestimated Correcting this imbalance the renowned political scholars who contribute to this volume outline both the theory and practice of so called extra formal democracy wherein societal governance is more accurately described as a network activity and citizens politicians public administrators and other professionals act together on issues or problems that are defined as public This new and complex form of democracy explored here in three unique settings the United States the Netherlands and Denmark is increasingly regarded as an achievable vision for a multi faceted theory of government

Comparative and International Criminal Justice Charles B. Fields, Richter H. Moore, 2005 Geographic and cultural diversity is well represented in this volume Traditional systems of justice are included as well as some very nonconventional methods of dispute resolution and punishment This finely tuned international collection will enhance a reader s appreciation and understanding of widely diverse approaches to law and control in selected cultural systems that differ greatly from familiar Western based attitudes Fields and Moore s collection provides readers with valuable twenty first century insight into the increasing complexity and interconnectedness of international criminal justice
