## **Changing College Classrooms:**

**Changing College Classrooms** Diane F. Halpern, 1994-04 This book is an exciting and highly useful addition to the literature on higher education and teaching It provides concrete information and suggestions for the improvement of teaching student learning and the whole educational process from the foreword by Lee R Kershner former Senior Vice Chancellor for Academic Affairs California State University System CSU and Jacquelyn Ann K Kegley co chair Advisory Board CSU Institute for Teaching and Learning Providing college students with the knowledge skills and abilities that will prepare them for today s complex world demands a major transformation in college classrooms from passive to active learning from traditional textbooks to hands on use of technology from restrictive ways of thinking to diverse multicultural perspectives This book combines a range of promising instructional strategies with helpful guidelines for assessing the effectiveness of instruction It will help faculty and administrators equip students with the creative critical technological and problem solving skills as well as a coherent sense of multicultural awareness necessary to thrive in a rapidly changing society

**Changing College Classrooms** Diane F. Halpern, 1994-03-01 *The Changing College Classroom* Philip Julian Runkel, Roger Harrison, Margaret Runkel, 1972

**Something Old, Something New** Wendy Bishop, 1990-03-05 How do college writing teachers learn new ways to teach Most current composition research focuses almost exclusively on student writers ignoring the role the teacher plays in classroom development Here is the first book to focus on college writing teachers and the ways in which they are affected by graduate rhetoric pedagogy courses Wendy Bishop observed teachers enrolled in a doctoral seminar titled Teaching Basic Writing and then conducted case studies of five of those teachers in their college writing classrooms to investigate how their teaching practices changed and how their previous professional and personal histories influenced their ability to make those changes

**University Teaching** James J.F. Forest, 2014-04-08 University and college teaching is an important topic in the study of higher education around the world This collection of original essays provides a broad perspective on the issue by examining preparation assessment and reward from cross cultural perspectives and exploring the cultural and social influences that affect these dimensions

**Genuine Individuals and Genuine Communities** Jacquelyn Ann K. Kegley, 1997 The continuing vitality of American thought stems to a large extent from the application of its historical roots to contemporary problems and issues Yet for some time the signal contributions of Josiah Royce 1855 1916 have been overlooked in the formulation and shaping of critical areas of public policy In this brilliantly articulated book ethicist Jacquelyn Kegley carefully explicates and enlarges the scope of Roycean thought and shows that Royce s views on public philosophy have direct and valuable application to current social problems

**Driving Change Through Diversity and Globalization** James A. Anderson, 2023-07-03 This book significantly advances discussion of the mission of higher education in today s multicultural environment and global economy It sets out the challenges and considerations that must be

addressed by administrative leaders by trustees and others who shape the vision and direction of the institution but most particularly by academic deans and faculty The author makes the case that the inclusion of diversity and globalization in disciplinary work contributes to the research agendas of individual faculty and their departments aligns with scholarly values and promotes such student learning goals as tolerance of ambiguity and paradox critical thinking and creativity He offers a strategic vision of success backed by theory and examples of effective application for creating transformative change and provides a roadmap to implementing inclusive pedagogical practices and curricula With implementation dependent on leadership and participation at every level of an institution everyone with a stake in its future should read this book

*Assessment* Peter Schwartz, Graham Webb, 2014-04-08 The fourth volume in this series deals with one of the ubiquitous higher and further education subjects With a practice based approach the text avoids being overly academic and instead uses a case study format to detail a wide range of approaches to assessment

**Resources in Education**, 1994 *Models for Improving College Teaching* Jon E. Travis, 1997 This report presents a collection of teaching models to help college faculty improve their teaching Six categories of teaching models are presented 1 assessment and feedback models including the Classroom Assessment model created by Angelo and Cross and already widely used among community college faculty 2 discussion and sharing models such as the Great Teachers Seminar which provide faculty with an event and an environment especially conducive to sharing ideas among colleagues 3 dissemination models which dispense an extensive assortment of ideas to large audiences of faculty 4 clinical development models such as the Instructional Skills Workshop which uses a laboratory setting common to teacher preparation programs 5 teaching and learning models such as Anderson s Adaptive Control of Thinking model which describes the learning process and presents specific procedures to facilitate specific learning types and 6 instructional planning models such as Gagne s Instructional Event Design that can help the faculty member through the process of course and lesson planning Three appendixes provide teaching resource lists and sample questions using classification systems Contains approximately 240 references MDM

**Routledge Library Editions: Higher Education** Various, 2021-03-29 The volumes in this set originally published between 1964 and 2002 draw together research by leading academics in the area of higher education and provide a rigorous examination of related key issues The volume examines the concepts of learning teaching student experience and administration in relation to the higher education through the areas of business sociology education reforms government educational policy business and religion whilst also exploring the general principles and practices of higher education in various countries This set will be of particular interest to students and practitioners of education politics and sociology

[Changing Urban Education](#) Clarence Nathan Stone, 1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry

inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why Changing Urban Education confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation s leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved Changing Urban Education makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future
