## **Changing Shape Of Church History:**

**The Changing Shape of Church History** Justo L. González, 2012-11 New different readings of church history are finally reflecting Christianity's deep roots in every culture worldwide. González listens to voices from centers other than the North Atlantic to help us see a different perspective of church history: a global story that includes those previously marginalized as he offers us a hopeful outlook for the future of world Christianity. *The Changing Shape of English Nonconformity, 1825-1925* Dale A. Johnson, 1999 This book addresses several dimensions of the transformation of English Nonconformity over the course of an important century in its history. It begins with the question of education for ministry, considering the activities undertaken by four major evangelical traditions: Congregationalist, Baptist, Methodist, and Presbyterian to establish theological colleges for this purpose and then takes up the complex three-way relationship of ministry, churches, and colleges that evolved from these activities. As author Dale Johnson illustrates, this evolution came to have significant implications for the Nonconformist engagement with its message and with the culture at large. These implications are investigated in chapters on the changing perception or understanding of ministry itself, religious authority, theological questions such as the doctrines of God and the atonement, and religious identity. In Johnson's exploration of these issues, conversations about these topics are located primarily in addresses at denominational meetings and conferences that took up specific questions and representative religious and theological publications of the day that participated in key debates or advocated contentious positions. While attending to some important denominational differences, *The Changing Shape of English Nonconformity 1825-1925* focuses on the representative discussion of these topics across the whole spectrum of evangelical Nonconformity rather than on specific denominational traditions. Johnson maintains that too many interpretations of nineteenth-century Nonconformity, especially those that deal with aspects of the theological discussion within these traditions, have tended to depict such developments as occasions of decline from earlier phases of evangelical vitality and appeal. This book instead argues that it is more appropriate to assess these Nonconformist developments as a collective, necessary, and deeply serious effort to come to terms with modernity and further to retain a responsible understanding of what it meant to be evangelical. It also shows these developments to be part of a larger schema through which Nonconformity assumed a more prominent place in the English culture of the nineteenth and early twentieth centuries.

**Reforming Memory** Robert Vosloo, 2017-10-02 Although we should acknowledge the fragility of memory, we should nevertheless affirm the remarkable ability of memory to reform and transform our identity. Our memories and ways of remembering are however often marked by trauma and violence. Memory therefore not merely reforms; it too is in need of reformation, redemption, and transformation. With this emphasis in mind, *Reforming Memory* grapples with the question: what a responsible engagement with the past entails, also for Christians and churches associated with the Reformed tradition. The history of Reformed churches in South Africa is one, one can argue, a deeply divided and ambivalent one. The same figures are heroes to some and

villains to others historic events are deeply ambiguous and conflicting views surround different discourses Yet the histories and perhaps futures of these churches and traditions are inextricably interwoven Reforming Memory fundamentally combines an interest in the notion of memory with an interest in South African Reformed theology and history Central is the question how should we remember and represent the past responsibly The essays collected in this book engage in different ways with this question attending in the process to some episodes in the history of the Dutch Reformed Church some influential Reformed theologians and some important Reformed practices and confessional documents
