Challenge Growing Within Orisa:

Yoruba Traditions and African American Religious Nationalism Tracey E. Hucks, 2012-05-16 Exploring the Yoruba tradition in the United States Hucks begins with the story of Nana Osejeman Adefunmi's personal search for identity and meaning as a young man in Detroit in the 1930s and 1940s She traces his development as an artist religious leader and founder of several African influenced religious cultural projects in Harlem and later in the South Adefunmi was part of a generation of young migrants attracted to the bohemian lifestyle of New York City and the black nationalist fervor of Harlem Cofounding Shango Temple in 1959 Yoruba Temple in 1960 and Oyotunji African Village in 1970 Adefunmi and other African Americans in that period renamed themselves Yorubas and engaged in the task of transforming Cuban Santería into a new religious expression that satisfied their racial and nationalist leanings and eventually helped to place African Americans on a global religious schema alongside other Yoruba practitioners in Africa and the diaspora Alongside the story of Adefunmi Hucks weaves historical and sociological analyses of the relationship between black cultural nationalism and reinterpretations of the meaning of Africa from within the African American community

A Year in White C. Lynn Carr, 2016-01-19 In the Afro Cuban Lukumi religious tradition more commonly known in the United States as Santería entrants into the priesthood undergo an extraordinary fifty three week initiation period During this time these novices called iyawo endure a host of prohibitions including most notably wearing exclusively white clothing In *A Year in White* sociologist C Lynn Carr who underwent this initiation herself opens a window on this remarkable year long religious transformation In her intimate investigation of the year in white Carr draws on fifty two in depth interviews with other participants an online survey of nearly two hundred others and almost a decade of her own ethnographic fieldwork gathering stories that allow us to see how cultural newcomers and natives thought felt and acted with regard to their initiation She documents how during the iyawo year the ritual slowly transforms the initiate's identity For the first three months for instance the iyawo may not use a mirror even to shave and must eat all meals while seated on a mat on the floor using only a spoon and their own set of dishes During the entire year the iyawo loses their name and is simply addressed as iyawo by family and friends Carr also shows that this year long religious ritual which is carried out even as the iyawo goes about daily life offers new insight into religion in general suggesting that the sacred is not separable from the profane and indeed that religion shares an ongoing dynamic relationship with the realities of everyday life Religious expression happens at home on the streets at work and school Offering insight not only into Santería but also into religion more generally *A Year in White* makes an important contribution to our understanding of complex dynamic religious landscapes in multicultural pluralist societies and how they inhabit our daily lives
