The challenge of childhood Ira Solomon Wile,1925 The impulse to write this book grew out of an experience of twenty years of work with children in dispensaries settlements schools penal institutions and in their own homes I have been brought face to face with a vast variety of problems involving children and in the general course of my professional activities particularly through my Health Class at Mount Sinai Hospital it has been my frequent privilege to aid other physicians visiting nurses teachers public health nurses probation officers social workers and parents in their dealings with children Gradually I was made conscious of the need for a book of practical discussions that might serve to assist all these different

classes of persons in understanding the nature of many problems of childhood The children discussed are real children They are a few of the many whom I have seen at the request of the various groups mentioned And it is for these workers and parents and for all those who love children and wish to gain a deeper insight into their nature and manifold problems that I have prepared this book Preface
