## Changes to this Teacher Guide

---

This Teacher Guide has been amended. The latest Teacher Guide is version 2.0, published September 2022.

- We have made changes in order to make the Teacher Guide digitally accessible. For example, we have increased the font size and spacing and added alternative text to images and tables.
- We have included subject-specific examples in each section.
- We have made the planning section more relevant to Cambridge Lower Secondary Global Perspectives to reflect the different ways it can be delivered in your school (Section 2).
- We have added more guidance on adapting Challenges and examples from selected Challenges that include example lesson plans (Section 2).
- We have added more guidance on learning resources and connecting with other Cambridge schools (Section 2).
- We have added guidance on the role of the Global Perspectives teacher (Section 3).
- We have included a new section on language and dialogue with more guidance on providing language support in the classroom (Section 4).
- We have added guidance on sensitivity around topics and issues (Section 4).
- We have added more guidance and subject-specific examples about parental involvement and links to the wider community (Section 5).
- We have removed information about Cambridge Lower Secondary Checkpoint Global Perspectives as this is now included in a new document *Checkpoint Instructions* (Section 6).
- We have added guidance on the new Assessment guidance (Section 6).
- We have included new diagrams to represent skills and demonstrate the components of a Challenge.
- We have removed case studies. Any existing or new case studies will be available on the Cambridge Lower Secondary support site.
- We have added more guidance on support for teachers and schools (Section 7).
- All sections of this Teacher Guide are now downloadable as separate documents.

There may be other minor changes that do not affect teaching and learning.

Effectiveness of teachers' guides in the Global South Benjamin Piper, Yasmin Sitabkhan, Jessica Mejia, Kellie Betts, 2018-05-10 This report presents the results of RTI International Education's study on teachers guides across 13 countries and 19 projects Using quantitative and qualitative methods we examine how teachers guides across the projects differ and find substantial variation in the design and structure of the documents We develop a scripting index so that the scripting levels of the guides can be compared across projects The impact results of the programs that use teachers guides show significant impacts on learning outcomes associated with approximately an additional half year of learning showing that structured teachers guides contribute to improved learning outcomes During observations we find that teachers make a variety of changes in their classroom instruction from how the guides are written showing that the utilization of structured teachers guides do not create robotic teachers unable to use their own professional skills to teach children Unfortunately many changes that teachers make reduce the amount of group work and interactivity that was described in the guides suggesting that programs should encourage teachers to more heavily utilize the instructional routines designed in the guide The report includes a set of research based guidelines that material developers can use to develop teachers guides that will support effective instructional practices and help improve learning outcomes The key takeaway from the report is that structured teachers guides improve learning outcomes but that overly scripted teachers guides are somewhat less effective than simplified teachers guides that give specific guidance to the teacher but are not written word for word for each lesson in the guide
