Women Made Visible Gabriela Aceves

Sepúlveda, 2019-04-01 2020 Canadian Association for Latin American and Caribbean Studies CALACS Book Prize In post 1968 Mexico a group of artists and feminist activists began to question how feminine bodies were visually constructed and politicized across media Participation of women was increasing in the public sphere and the exclusive emphasis on written culture was giving way to audio visual communications Motivated by a desire for self representation both visually and in politics female artists and activists transformed existing regimes of media and visibility Women Made Visible by Gabriela Aceves Sep lveda uses a transnational and interdisciplinary lens to analyze the fundamental and overlooked role played by artists and feminist activists in changing the ways female bodies were viewed and appropriated Through their concern for self representation both visually and in formal politics these women played a crucial role in transforming existing regimes of media and visibility increasingly important intellectual spheres of action Foregrounding the work of female artists and their performative and visual rather than written interventions in urban space in Mexico City Aceves Sep lveda demonstrates that these women feminized Mexico's mediascapes and shaped the debates over the female body gender difference and sexual violence during the last decades of the twentieth century Weaving together the practices of activists filmmakers visual artists videographers and photographers Women Made Visible questions the disciplinary boundaries that have historically undermined the practices of female artists and activists and locates the development of Mexican second wave feminism as a meaningful actor in the contested political spaces of the era both in Mexico City and internationally

The Art of Solidarity

Jessica Stites Mor, Maria del Carmen Suescun Pozas, 2018-10-17 The Cold War claimed many lives and inflicted tremendous psychological pain throughout the Americas The extreme polarization that resulted from pitting capitalism against communism held most of the creative and productive energy of the twentieth century captive Many artists responded to Cold War struggles by engaging in activist art practice using creative expression to mobilize social change The Art of Solidarity examines how these creative practices in the arts and culture contributed to transnational solidarity campaigns that connected people across the Americas from the early twentieth century through the Cold War and its immediate aftermath

This collection of original essays is divided into four chronological sections cultural and artistic production in the pre Cold War era that set the stage for transnational solidarity organizing early artistic responses to the rise of Cold War polarization and state repression the centrality of cultural and artistic production in social movements of solidarity and solidarity activism beyond movements Essay topics range widely across regions and social groups from the work of lesbian activists in Mexico City in the late 1970s and 1980s to the exchanges and transmissions of folk music practices from Cuba to the United States to the uses of Chilean arpilleras to oppose and protest the military dictatorship While previous studies have focused on politically engaged artists or examined how artist communities have created solidarity movements this book is one of the first to merge both perspectives

Bad Language, Naked Ladies, and Other Threats to the Nation Anne Rubenstein,1998 A history of Mexican comic books their readers their producers their critics and their complex relations with the government and the Church that discusses cultural nationalism popular taste and social change
