The Young Child Donna S. Wittmer, Sandra H. Petersen, Margaret B. Puckett, 2016-04-04. This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This widely used text discusses major development theories as they relate to physical, social, and emotional and cognitive domains and contains extensive applications for teaching and working with young children. It provides students of child development with a sound knowledge base of current theory and research in the field of early childhood growth, development, and learning and its translation into practice in the daily lives of very young children. Time-honored theories of child development are discussed and applied to current knowledge about how children develop and learn, and contemporary theories such as Cognitive Core Systems and Neoconstructivism and Contextual theories, Dynamic Systems, and Relationship-Based Theories are included. The authors apply theories and the supporting research based on these theories to Early Childhood Education practices in the classroom and with families. The new edition features a strong emphasis on the application of information, examples of early learning guidelines, and outcome standards. New Meeting the Needs of All Children sections, complete updating throughout, and video exercises and a policy video question for applying knowledge.

Child Development Laura E. Berk, 2006. The new edition of this topical approach to child development continues its tradition of being the most current and comprehensive text available. Laura Berk carefully considers the complexities of the subject, presenting cutting-edge theories.
