Childhood Experience and Personal Destiny William V. Silverberg, 2014-09-01 **The Beggar Lama** Tenzin Jinba, 2023-10-24 The Beggar Lama is the story of the Gyalrong Kuzhap a Tibetan Buddhist polymath and reincarnated lama who has led a remarkable life through the vicissitudes of the twentieth century Born in 1930 in Tsanlha Gyalrong on the easternmost fringes of the Himalayan Tibetan Plateau he would go on to become a monk a Communist official a professor of Tibetan studies and a leader in the Tibetan cultural survival movement in China Drawing on hundreds of hours of in depth and open ended conversations over more than a decade Tenzin Jinba presents the Gyalrong Kuzhap s life story The Beggar Lama chronicles his journeys from Gyalrong to Lhasa from steadfast Communist to critic of the Chinese regime from scholar to activist painting a compelling portrait of an influential and unconventional figure In so doing the book shows how the Gyalrong Kuzhap s tale intertwines with larger social and political developments providing a wide ranging history of Tibet the Sino Tibetan borderlands and China over the past century The Beggar Lama shares the Gyalrong Kuzhap s insightful and often critical views on Tibetan cultural and religious institutions the Chinese Communist Party s social and political agendas Tibetan studies in China and the prospects for Tibetan cultural rebirth Above all it is a story of hope in dark times as the Gyalrong Kuzhap seeks with his last breath to prevent Tibetan culture and memory from vanishing **Intimate Strangers** Andreea Deciu Ritivoi, 2014-09-09 Hannah Arendt Herbert Marcuse Alexander Solzhenitsyn and Edward Said each steered major intellectual and political schools of thought shaping American political discourse after World War II Yet none of them was American and this was crucial to their thinking which relied on ways of arguing and reasoning that stand both inside and outside of the American context In an effort to convince their audiences they were American enough these thinkers deployed deft rhetorical strategies that made their cosmopolitanism feel acceptable inspiring radical new approaches to longstanding problems in American politics Speaking like natives they also exploited their foreignness to entice listeners to embrace alternative modes of thought Intimate Strangers unpacks this stranger ethos a blend of detachment and involvement that manifested in the persona of a prophet for Solzhenitsyn an impartial observer for Arendt a mentor for Marcuse and a victim for Said Despite its many successes though the stranger ethos did alienate audiences and many critics continue to dismiss these thinkers not for their positions but because of their foreign point of view This book concludes with an appeal to reject this kind of xenophobia throwing support behind a political discourse that accounts for the ideals of both citizens and noncitizens **Children with Special Needs** Michael Luxford, 1994 A concise illustrated introduction to Steiner s ideas on the education of children with special needs These insights have led to the creation of special schools communities and villages throughout the world collectively known as the curative education movement An important part of this network is

made up of the Camphill schools and communities which are found in some 20 countries worldwide

Expanding Mindscales Erika Dyck, Chris Elcock, 2023-11-21 The first collection of its kind to explore the diverse and global history of psychedelics as they appealed to several generations of researchers and thinkers Expanding Mindscales offers a fascinatingly fluid and diverse history of psychedelics that stretches around the globe While much of the literature to date has focused on the history of these drugs in the United States and Canada editors Erika Dyck and Chris Elcock deliberately move away from these places in this collection to reveal a longer and more global history of psychedelics which chronicles their discovery use and cultural impact in the twentieth century The authors in this collection explore everything from LSD psychotherapy in communist Czechoslovakia to the first applications of LSD 25 in South America to the intersection of modernism and ayahuasca in China Along the way they also consider how psychedelic experiments generated their own cultural expressions where the specter of the United States may have loomed large and where colonial empires exerted influence on the local reception of psychedelics in botanical and pharmaceutical pursuits Breaking new ground by adopting perspectives that are currently lacking in the historiography of psychedelics this collection adds to the burgeoning field by offering important discussions on underexplored topics such as gender agriculture parapsychology anarchism and technological innovations
