## **Childless Is Not Less:**

**Childless is Not Less** Vicky Love, 1984      **Childlessness in the Age of Communication** Cristina Archetti, 2020-03-25  
Cristina Archetti started researching childlessness after being diagnosed with unexplained infertility. She soon discovered that although involuntary childlessness affects an increasing number of women and men across the world, this topic is shrouded in taboo and shame. This book is both a first-person reflection about the existential questions posed by involuntary childlessness and a readable account of the way the silence surrounding this topic is socially and politically constructed. Revealing the invisible mechanisms that from the microscopic details of everyday life to policy make up the structure of silence around childlessness, Archetti demonstrates what it means not to have children in a society that is organized around families. Through a prose that mixes analysis, excerpts of interviews, media fragments, and evocative writing, she develops a new language of feeling in the body fit for the twenty-first century and exposes the devastating effects infertility has on relationships, identity, health, and well-being in societies that fetishize parenthood. *Childlessness in the Age of Communication* draws upon a range of disciplines and fields including sociology, health, gender, and sexuality studies, communication, politics, and anthropology. It is a book for all those interested in childlessness and innovative qualitative research methodologies. The Open Access version of this book is available at <http://www.taylorfrancis.com> and has been made available under a Creative Commons Attribution Non-Commercial No Derivatives CC BY-NC-ND 4.0 license.      [Childlessness in Europe: Contexts, Causes, and Consequences](#) Michaela Kreyenfeld, Dirk Konietzka, 2017-01-11. This book is published open access under a CC BY 4.0 license. This open access book provides an overview of childlessness throughout Europe. It offers a collection of papers written by leading demographers and sociologists that examine contexts, causes, and consequences of childlessness in countries throughout the region. The book features data from all over Europe. It specifically highlights patterns of childlessness in Germany, France, the United Kingdom, Finland, Sweden, Austria, and Switzerland. An additional chapter on childlessness in the United States puts the European experience in perspective. The book offers readers such insights as the determinants of lifelong childlessness, whether governments can and should counteract increasing childlessness, how the phenomenon differs across social strata, and the role economic uncertainties play. In addition, the book also examines life course dynamics and biographical patterns, assisted reproduction, as well as the consequences of childlessness. Childlessness has been increasing rapidly in most European countries in recent decades. This book offers readers expert analysis into this issue from leading experts in the field of family behavior. From causes to consequences, it explores the many facets of childlessness throughout Europe to present a comprehensive portrait of this important demographic and sociological trend.

**Childlessness Transformed** Jane English, 1989      **Biennial Compilation of General Ordinances of the City of Louisville** Louisville (Kentucky), 1929      *Handbook of Marriage and the Family* Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11. The lucid, straightforward Preface of this Handbook by the two editors and the comprehensive perspective

tives offered in the Introduction by one of them leave little for a Foreword to add. It is therefore limited to two relevant but not intrinsically related points: vis a vis research on marriage and the family in the interval since the first Handbook. Christensen 1964 appeared, namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook. In the late 1930s Willard Waller noted: Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it. Everything that concerned the life of men and women and their children was shrouded from the light. Today much of that has been changed. Gone is the concealment of the way in which life begins, gone the irrational sanctity of the home. The aura of sentiment which once protected the family from discussion clings to it no more. We want to learn as much about it as we can and to understand it as thoroughly as possible, for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting. We are engaged in the process of reconstructing our family institutions through criticism and discussion. 1938 pp 3-4

How is a Man Supposed to be a Man? Robin A Hadley, 2021-09-17. The global trend of declining fertility rates and an increasingly ageing population has serious implications for individuals and institutions alike. Childless men are mostly excluded from ageing social science and reproduction scholarship and almost completely absent from most national statistics. This unique book examines the lived experiences of a hidden and disenfranchised population: men who wanted to be fathers. It explores the complex intersections that influence childlessness over the life course.
