## **Children As Citizens:**

Children as Citizens? Childwatch International Citizenship Study Group, 2009 The rights of children as citizens have become an increasing focus of international attention as the 20th anniversary of the UN Convention on the Rights of the Child is celebrated in 2009 The key components of citizenship include entitlement to respect and recognition opportunities for belonging and meaningful participation in society the right to express an opinion and have it taken into account and the fulfillment of duties to others This book reports on research with children and young people in Australia Brazil New Zealand Norway Palestine and South Africa There were ideas they held in common obeying the law respecting and helping others working hard but it was also found that certain features of different nations whether inequality in Brazil migration and multiculturalism in Australia and New Zealand or conflict and occupation in Palestine were reflected in how the children interpreted their rights responsibilities and citizenship Children as Citizens International Voices is the result of collaborative research by the Childwatch International Citizenship Study Group *Children and Citizenship* Jane Williams, Antonella Invernizzi, 2008 Children and Citizenship offers a contemporary and critical approach to the central debates around notions of children's citizenship Drawing on different disciplinary perspectives and including contributions by leading scholars in the field this book makes explicit connections between theoretical approaches representations of childhood and the experiences of children themselves legal instruments policies and their implementation The book contains reflections on the notion of children's citizenship in general as well as in relation to international instruments in particular the UN Convention on the Rights of the Child UNCRC the case law of the European Convention on Human Rights ECHR and EU legislation relating to citizenship and children's rights **The Child as Citizen** Felton J. Earls, 2011-02-23 Marking the 20th anniversary of the United Nations General Assembly's adoption of the Convention on the Rights of the Child CRC this volume of the ANNALS considers conceptual legal and practical issues related to the realization of children as citizens **Young Children as Active Citizens** Patrick Hughes, Glenda Mac Naughton, Kylie Smith, 2009-10-02 Young Children as Citizens explores how young children birth to 12 years of age can and should participate in civic life It reflects new images of young children as social actors together with the increased interest in children's rights in the public sphere The contributors are early childhood researchers pedagogues children and policy makers from Australia and Europe They present a rich diversity of research based case studies in which policy makers and educators have listened to young children's views on public issues and responded in respectful and ethical ways Young Children as Citizens is a unique resource for policy makers those working in children's services and child advocates It shows how best to consult young children and it presents a range of arguments that consulting young children about policies and decisions that affect them supports and enhances a vigorous democratic society Students undergraduate and postgraduate teachers and researchers in early childhood studies can use individual chapters of Young Children as Citizens selectively to explore issues of increasing complexity in different courses

The book would be a good set text for Honours and Master s programs that address issues of children s rights [The History and Theory of Children's Citizenship in Contemporary Societies](#) Brian Milne,2013-04-15 This book examines the notion of children having full citizenship It does so historically through intellectual discourse beliefs and moral and ideological positions on children It looks at the status and extent of knowledge of the position of children covering about 2500 years The book takes European and other cultures traditions and beliefs into consideration It reflects on the topic from a variety of disciplines including social sciences theology and philosophy The book places children s citizenship in the centre of children s rights discourse Part of the work is a critical appraisal of children s participation because it diverts attention away from children as members of society toward being a separable group The book moves on from child participation using a children s rights based argument toward examination of the relationship of the child with the state i e as potentially full member citizens

*Children as Citizens* Pauline Harris,Harry Manatakis,2013 This book discusses how consultations with young children could signal a change of thinking about how children might influence policy and shape the development of a child friendly state While the consultations in this study were germane to political decisions they took place as multi modal dialogue with children in their educational settings Framed by Australia s national early years learning framework which focuses on children s belonging and identity the consultations saw unique partnerships formed among children educators families and policy officers providing ways in which children s voices may be engaged in educational spaces throughout the world Using a qualitative case study approach these consultations were documented through observations interviews artefact collection and document analyses allowing the authors to construct a framework for
