*War and Its Ideologies* Annabelle Lukin, 2018-10-09 Ideology is so powerful it makes us believe that war is rational despite both its brutal means and its devastating ends The power of ideology comes from its intimate relation to language ideology recruits all semiotic modalities but language is its engine room Drawing on Halliday's linguistic theory in particular his account of the semiotic big bang this book explains the latent semiotic machinery of language on which ideology depends The book illustrates the ideological power of language through a study of perhaps the most significant and consequential of our ideologies those that enable us to legitimate celebrate even venerate war at the same time that we abhor denounce and proscribe violence To do so it makes use of large multi register corpora including the British National Corpus and the reporting of the 2003 invasion of Iraq by Australian US European and Asian news sources Combining detailed text analysis with corpus linguistic methods it provides an empirical analysis showing the astonishing reach of our ideologies of war and their profoundly covert and coercive power

**Jews and Jewishness in British Children's Literature** Madelyn Travis, 2013-09-02 In a period of ongoing debate about faith identity migration and culture this timely study explores the often politicised nature of constructions of one of Britain's longest standing minority communities Representations in children's literature influenced by the impact of the Enlightenment the Empire the Holocaust and 9/11 reveal an ongoing concern with establishing maintaining or problematising the boundaries between Jews and Gentiles Chapters on gender refugees multiculturalism and historical fiction argue that literature for young people demonstrates that the position of Jews in Britain has been ambivalent and that this ambivalence has persisted to a surprising degree in view of the dramatic socio

cultural changes that have taken place over two centuries Wide ranging in scope and interdisciplinary in approach *Jews and Jewishness in British Children's Literature* discusses over one hundred texts ranging from picture books to young adult fiction and realism to fantasy Madelyn Travis examines rare eighteenth and nineteenth century material plus works by authors including Maria Edgeworth E Nesbit Rudyard Kipling Richmal Crompton Lynne Reid Banks Michael Rosen and others The study also draws on Travis's previously unpublished interviews with authors including Adele Geras Eva Ibbotson Ann Jungman and Judith Kerr [Catalog of the Peace Collection](#) Swarthmore College, Peace Collection, 1982 [War Paint](#) Brian Foss, Professor of Art History School for Studies in Art and Culture Brian Foss, 2007-01-01 In this groundbreaking examination of British war art during the Second World War Brian Foss delves deeply into what art meant to Britain and its people at a time when the nation's very survival was under threat Foss probes the impact of war art on the relations between art state patronage and public interest in art and he considers how this period of duress affected the trajectory of British Modernism Supported by some two hundred illustrations and extensive archival research the book offers the richest most nuanced view of mid century art and artists in Britain yet written The author focuses closely on Sir Kenneth Clark's influential War Artists Advisory Committee and explores topics ranging from censorship to artists finances from the depiction of women as war workers to the contributions of war art to evolving notions of national identity and Britishness Lively and insightful the book adds new dimensions to the study of British art and cultural history *The Crippled Child*, 1943
