**Societal Contexts of Child Development** Elizabeth T. Gershoff Ph.D.,Rashmita S. Mistry Ph.D.,Danielle A. Crosby Ph.D.,2013-09-06 In the last half century developmental scientists have become increasingly interested in studying contexts beyond the home environment that contribute to children s growth and development including physical contexts such as schools and neighborhoods as well as social contexts such as poverty During this same period a number of social trends have significantly impacted children s daily lives including shifts in gender roles and expectations the emergence of an early care and education system and the

proliferation of media technology Societal Contexts of Child Development provides comprehensive literature reviews for six broad contextual influences on children s development that have emerged as key areas of inquiry in contemporary society gender child care culture and ethnicity poverty schools and neighborhoods and media In the spirit of applied developmental science this book considers these six contextual domains in a series of two linked chapters written by experts in the interdisciplinary field of developmental science The first chapter in each section is organized as a review of basic research relevant to a particular context including a discussion of prominent theoretical and methodological issues The second chapter in each section then addresses the same context from an applied research perspective examining and documenting how research has been can be or should be used to enhance the everyday lives and developmental outcomes of children and their families through interventions and or social policies The book concludes with a chapter specifically dedicated to making connections between research and practice and an epilogue that situates the book s chapters within the field s study of contexts Societal Contexts of Child Development will appeal to a broad audience of scholars students practitioners and policymakers from the disciplines of psychology sociology economics human development and public policy
