Children Experience Literature:

Children's Literature Barbara Stoodt, 1996 **Experiencing Environment and Place through Children's Literature** Amy Cutter-Mackenzie, Phillip Payne, Alan Reid, 2014-06-11 Recent scholarship on children's literature displays a wide variety of interests in classic and contemporary children's books. While environmental and ecological concerns have led to an interest in ecocriticism, as yet there is little on the significance of the ecological imagination and experience to both the authors and readers young and old of these texts. This edited collection brings together a set of original international research-based chapters to explore the role of children's literature in learning about environments and places with a focus on how children's literature may inform and enrich our imagination, experiences, and responses to environmental challenges and injustice. Contributions from Australia, Canada, USA, and UK explore the diverse ways in which children's literature can provide what are arguably some of the first and possibly most formative engagements that some children might have with nature. Chapters examine classic and new storybooks, mythic tales, and image-based and/or written texts read at home, in school, and in the field. Contributors focus on exploring how children's literature mediates and informs our imagination and understandings of diverse environments and places and how it might open our eyes and lives to other presences, understandings, and priorities through stories, their telling, and re-telling, and their analysis. This book was originally published as a special issue of *Environmental Education Research*. [International Companion Encyclopedia of Children's Literature](#) Peter Hunt, Sheila G. Bannister Ray, 1996 The Encyclopedia offers comprehensive and international coverage of children's literature from a number of perspectives: theory and critical approaches, types and genres, context, applications, and individual country essays. *A Handbook of Children's Literature, Methods and Materials* Emelyn Elizabeth Gardner, Eloise Ramsey, 1927 **An Integrated Play-Based Curriculum for Young Children** Olivia N. Saracho, 2020-10-05 An Integrated Play-Based Curriculum for Young Children, Second Edition, explores how to integrate play across the curriculum, helping teachers develop their early childhood curriculum using developmentally and culturally appropriate practice. Distinguished author Olivia N. Saracho offers a theoretical framework for understanding the origins of an early childhood play-based curriculum and illuminates how young children learn and understand concepts in a social and physical environment. This second edition has been fully updated throughout, and its comprehensive coverage has been expanded with entirely new sections on technology and social media, cultural differences in play, and teaching English language learners and students with disabilities. Packed with vignettes, activities, and practical examples, this text is essential reading for pre-service teachers seeking appropriate theoretical practices for designing and implementing a play-based curriculum. **Contemporary Perspectives on Language Policy and Literacy Instruction in Early Childhood Education** Olivia N. Saracho, Bernard Spodek, 2004-01-01 This anthology, edited by Saracho and Spodek, reviews the current knowledge on educating students not fully proficient in English. It moves beyond the narrow focus of language instruction to examine individual, social, and
