## **Devices And Desires:**

Devices and Desires Andrea Tone,2002-05 From thriving black market to big business the commercialization of birth control in the United States In *Devices and Desires* Andrea Tone breaks new ground by showing what it was really like to buy produce and use contraceptives during a century of profound social and technological change A down and out sausage casing worker by day who turned surplus animal intestines into a million dollar condom enterprise at night inventors who fashioned cervical caps out of watch springs and a mother of six who kissed photographs of the inventor of the Pill these are just a few of the individuals who make up this riveting story *Devices and Desires* Habberton Lulham,1904 Devices and Desires Vera Wheatley,1926 *Devices and Desires* P. D. James,2011-10-05 NATIONAL BESTSELLER Featuring the famous Commander Adam Dalgliesh *Devices and Desires* is a thrilling and insightfully crafted novel of fallible people caught in a net of secrets ambitions and schemes on a lonely stretch of Norfolk coastline Part of the bestselling mystery series that inspired Dalgliesh on Acorn TV Taut Absorbing Better than her best The New York Times Book Review A masterful writer *Devices and Desires* seems to be that highly prized work a terrific tale of suspense and detection that also delivers the satisfaction of a mainstream novel The Wall Street Journal Commander Dalgliesh of Scotland Yard has just published a new book of poems and has taken a brief respite from publicity on the remote Larksoken headland on the Norfolk coast in a converted windmill left to him by his aunt But he cannot so easily escape murder A psychotic strangler of young women is at large in Norfolk and getting nearer to Larksoken with every killing And when Dalgliesh discovers the murdered body of the Acting Administrative Officer on the beach he finds himself caught up in the passions and dangerous secrets of the headland community and in one of the most baffling murder cases of his career **Devices and Desires** Francis Charles MacDonald,1922 **Devices & Desires** Margarete Sandelowski,2000 The author traces the relationship between nursing and technology from the 1870s to the present She argues that while technology has helped shape and intensify persistent dilemmas in nursing it has also both advanced and impeded the development of the nursing profession Devices and Desires Eileen Arnot Robertson,1954 *Smuggler Nation* Peter Andreas,2013-01-16 America is a smuggler nation Our long history of illicit imports has ranged from West Indies molasses and Dutch gunpowder in the 18th century to British industrial technologies and African slaves in the 19th century to French condoms and Canadian booze in the early 20th century to Mexican workers and Colombian cocaine in the modern era Contraband capitalism it turns out has been an integral part of American capitalism Providing a sweeping narrative history from colonial times to the present *Smuggler Nation* is the first book to retell the story of America and of its engagement with its neighbors and the rest of the world as a series of highly contentious battles over clandestine commerce As Peter Andreas demonstrates in this provocative and fascinating account smuggling has played a pivotal and too often overlooked role in America s birth westward expansion and economic development while anti smuggling campaigns have dramatically enhanced the federal government s policing powers The great irony Andreas tells us is that a country that

was born and grew up through smuggling is today the world's leading anti-smuggling crusader. In tracing America's long and often tortuous relationship with the murky underworld of smuggling, Andreas provides a much-needed antidote to today's hyperbolic depictions of out-of-control borders and growing global crime threats. Urgent calls by politicians and pundits to regain control of the nation's borders suffer from a severe case of historical amnesia, nostalgically implying that they were ever actually under control. This is pure mythology, says Andreas. For better and for worse, America's borders have always been highly porous. Far from being a new and unprecedented danger to America, the illicit underside of globalization is actually an old American tradition. As Andreas shows, it goes back not just decades but centuries. And its impact has been decidedly double-edged, not only subverting U.S. laws but also helping to fuel America's evolution from a remote British colony to the world's pre-eminent superpower.
