

COMMON TYPES OF DIABETES

Type 1 Diabetes

- Often hereditary
- Usually associated with insufficient insulin production by the pancreas
- Regular insulin injections are recommended for control

Type 2 Diabetes

- Can arise due to a combination of genetic and environmental factors
- Most common form of Diabetes
- Risk factors include
 1. 40 years old and above
 2. Being overweight
 3. Lack of regular physical activity

Gestational Diabetes

- Hormonal changes during pregnancy may cause some women to have high blood glucose levels
- Often, the levels return to normal after delivery
- At times, these women may be at risk of developing Type 2 Diabetes later on in life

Equity, Social Determinants and Public Health Programmes World Health Organization, 2010 Description of WHO s major health programmes with particular reference to patterns of inequity and the identification of social determinants Identifies promising interventions and ways of reducing obstacles to better health both within countries and between countries

Psychology and Sociology Applied to Medicine Beth Alder, Edwin van Teijlingen, MA, MEd, PhD, Michael Porter, BA, MPhil, 2009-06-17 This textbook in the Illustrated Colour Text series offers an integrated treatment of sociology and psychology for medical students It is presented in a much more colourful and graphic format than is usual for books on these two subjects This integration reflects the tendency to teach these two subjects together as behavioural science with an increased stress on the place of medicine in society and on illness as a product of psychological and social circumstances rather than merely a biological phenomenon The book reflects these trends and has been successful and popular with students An integrated treatment of psychology and sociology for medical students in line with the trend towards teaching

these subjects as behavioural sciences Use of case studies and Stop Think boxes encourages critical thinking and discussion Graphic Illustrated Colour Text presentation style enlivens a subject which most medical students are not keen on This third edition contains a new introduction on the importance and key features of the biopsychosocial model and additional double page spreads on International Health and Rural Health

Manson's Tropical Diseases Gordon Charles Cook, Alimuddin Zumla, 2009-01-01 Providing the latest coverage on emerging and re emerging diseases from around the world such as tuberculosis and malaria this updated guide contains boxes and tables that highlight key information on current therapies This edition includes online access for more information
