Essays on Some Disputed Questions in Modern International Law Thomas Joseph Lawrence, 1885 **The Disputed Questions on Truth: Questions I-IX, translated by R. W. Mulligan** Saint Thomas (Aquinas), 1952 **The Disputed Questions on Truth** Saint Thomas (Aquinas), 1952 *Kant: Disputed Questions* Moltke S. Gram, 1967 **The Metaphysical Thought of Thomas Aquinas** John F. Wippel, 2000

Written by a highly respected scholar of Thomas Aquinas's writings this volume offers a comprehensive presentation of Aquinas's metaphysical thought. It is based on a thorough examination of his texts organized according to the philosophical order as he himself describes it rather than according to the theological order. In the introduction and opening chapter John F. Wippel examines Aquinas's view on the nature of metaphysics as a philosophical science and the relationship of its subject to divine being. Part One is devoted to his metaphysical analysis of finite being. It considers his views on the problem of the One and the Many in the order of being and includes his debt to Parmenides in formulating this problem and his application of analogy to finite being. Subsequent chapters are devoted to participation in being, the composition of essence and esse in finite beings and his appeal to a kind of relative nonbeing in resolving the problem of the One and the Many. Part Two concentrates on Aquinas's views on the essential structure of finite being and treats substance, accident, composition and related issues including among others the relationship between the soul and its powers and unicity of substantial form. It then considers his understanding of matter, form, composition of corporeal beings and their individuation. Part Three explores Aquinas's philosophical discussion of divine being, his denial that God's existence is self-evident and his presentation of arguments for the existence of God first in earlier writings and then in the Five Ways of his *Summa theologiae*. A separate chapter is devoted to his views on quidditative and analogical knowledge of God. The concluding chapter revisits certain issues concerning finite being under the assumption that God's existence has now been established.

John F. Wippel, professor of philosophy at The Catholic University of America, was recently awarded the prestigious Aquinas Medal by the American Catholic Philosophical Association. In addition to numerous articles and papers, Wippel has coauthored or edited several other works including *Metaphysical Themes in Thomas Aquinas* and *The Metaphysical Thought of Godfrey of Fontaines*, both published by CUA Press.

PRAISE FOR THE BOOK

The quality of Wippel's historical research and interpretation and the detail of his argumentation make this a work that will have to be taken account of in any further studies of this topic.

John Boler, *International Studies in Philosophy*

A carefully and solidly argued presentation of Aquinas's metaphysics by a scholar of medieval philosophy and a superb metaphysician. It should stand on the library shelf of every student of medieval philosophy, sharing the stage with Wippel's other dependable works.

Prof. Stephen F. Brown, Boston College

In Wippel we have a master of medieval metaphysics who is at the height of his powers and who can bring to bear on this work of interpretation years of study not only of Aquinas but also of the whole context of medieval metaphysics in which Aquinas thought and wrote. The result is a monumental work which

will quickly become the definitive work on Aquinas's metaphysics Prof Eleonore Stump St Louis University Wipfel proposes to set forth Thomas Aquinas's metaphysical thought based on his own texts in accord with the philosophical order This is a bold even audacious proposal but one that Wipfel succeeds in realizing thanks to his expansive and detailed knowledge of a field in which he has worked for more than twenty years He has total command not only of the works of Thomas of his sources and of his earliest commentators but also of the secondary literature of this century in English Italian French German and Spanish Gregorianum A positively magisterial account of its subject Bonaventure Christopher M.
