Dissent Disruption:

Dissent and Disruption Richard A. Siggelkow, 1991-01-01 No Marketing Blurb Shutting Down the Streets Amory Starr, Luis A. Fernandez, Christian Scholl, 2011 Recently a wall was built in eastern Germany Made of steel and cement blocks topped with razor barbed wire and reinforced with video monitors and movement sensors this wall was not put up to protect a prison or a military base but rather to guard a three day meeting of the finance ministers of the Group of Eight G8 The wall manifested a level of security that is increasingly commonplace at meetings regarding the global economy The authors of Shutting Down the Streets have directly observed and participated in more than 20 mass actions against global in North America and Europe beginning with the watershed 1999 WTO meetings in Seattle and including the 2007 G8 protests in Heiligendamm Shutting Down the Streets is the first book to conceptualize the social control of dissent in the era of alterglobalization Based on direct observation of more than 20 global summits the book demonstrates that social control is not only global but also preemptive and that it relegates dissent to the realm of criminality The charge is insurrection but the accused have no weapons The authors document in detail how social control forecloses the spaces through which social movements nurture the development of dissent and effect disruptive challenges **Course Correction** Paul W. Gooch, 2019-03-01 Course Correction engages in deliberation about what the twenty first century university needs to do in order to re find its focus as a protected place for unfettered commitment to knowledge not just as a space for creating employment or economic prosperity The university s business Paul W Gooch writes is to generate and critique knowledge claims and to transmit and certify the acquisition of knowledge In order to achieve this a university must have a reputation for integrity and trustworthiness and this in turn requires a diligent and respectful level of autonomy from state religion and other powerful influences It also requires embracing the challenges of academic freedom and the effective governance of an academic community Course Correction raises three important questions about the twenty first century university In discussing the dominant attention to student experience the book asks Is it now all about students Secondly in questioning What knowledge should undergraduates gain it provides a critique of undergraduate experience advocating a Socratic approach to education as interrogative conversation Finally by asking What and where are well placed universities the book makes the case against placeless education offered in the digital world in favour of education that takes account of its place in time and space **The Codex of Infinite Realities** Cassandra Ortiz, *A History of the Jewish Experience* Leo Trepp, 2001 A comprehensive one volume history of Jewish civilization **Planning For Higher Education** Allan O. curious unsettling and controversial cases of mummies held in French and British museums From powdered mummies eaten as medicine to mummies unrolled in public dissected for race studies and DNA tested in modern laboratories there is a lot more to these ancient remains than first meets the eye This book takes you on a journey from Paris to London Leicester and Manchester from the apothecaries of the Middle Ages to the dissecting tables of the eighteenth century and finally behind the screen of today s computers to revisit the stories of these bodies that have fascinated Europeans for so long Mummified investigates matters of life and death of collecting and viewing and of interactions sometimes violent and sometimes emotional that question the essence of what makes us human
