Culturally Diverse Parent-Child and Family Relationships Nancy Boyd Webb, 2001-07-10 In an increasingly diverse social environment, misunderstandings often arise between practitioners in the helping professions and clients from different racial and ethnic backgrounds. This book investigates the culturally specific beliefs and child-rearing practices of five major racial-ethnic groups: African Americans, Latinos, Native Americans, Asian Americans, and European Americans. Analyses of case vignettes illustrate the book's dual focus on the practitioners' own views in addition to those of their culturally diverse clients. Guidelines offer suggestions for effective engagement and work with culturally diverse families.

Families in Society, 2003 **The Strengths Perspective in Social Work Practice** Dennis Saleebey, 2006 The Strengths Perspective in Social Work Practice presents an unrivaled collection of essays that explain the strengths-based philosophy, demonstrate how it works, and provide clear and practical tools for its application. Diversity Perspectives for Social Work Practice** Robin Wiggins

Carter, 2003 This book examines the prevailing theoretical frameworks for viewing diversity in social work practice and helps students develop competencies for work with and on behalf of diverse populations The theoretical frameworks presented in the text cover three major dimensions of the diversity theme in social work practice: ethnocultural diversity, oppression, and social justice and vulnerable at risk populations While other texts tend to explore these dimensions through a single theoretical framework, Anderson provides an overview of these separate approaches Chapters are organized so that instructors can teach and students can learn these frameworks comparatively and critically Each chapter follows a similar outline which includes: 1 a summary of the major contributors to the framework; 2 presentation of the core concepts; 3 five to ten principles for practice in application of the framework; 4 an example of its application to a particular practice situation; 5 an assessment of its strengths and limitations; 6 annotated sources for further study; and 7 discussion questions to promote critical thinking about the framework
