Diversity Works The Emerging Picture:

Diversity Works Daryl G. Smith, 1997 This report presents a review of the literature and an annotated bibliography of research on the impact of campus diversity initiatives on American college students First an executive summary concludes that overall the literature suggests that diversity initiatives positively affect both minority and majority students on campus It specifically identifies successful strategies such as programs which focus on the transition to college of underrepresented students mentoring programs specialized student support programs programs which emphasize opportunities for interaction between and among student groups and serious engagement with diversity issues in the curriculum and classroom The two chapters of Part 1 provide a context for campus diversity research and explain the framework for searching organizing and analyzing the literature Part 2 presents the research findings in four chapters which address 1 representation inclusion and success of underrepresented populations 2 campus climate and intergroup relations 3 education and scholarship curriculum teaching and learning and 4 institutional transformation findings on comprehensive campus commitments to diversity A final chapter considers implications for the future An annotated bibliography provides abstracts for over 250 related articles and books Also contains approximately 150 references DB [Blacks and Whites Meeting in America](#) Terry White, 2003-02-06 In white memory which has been the dominant memory blacks are usually absent They just do not figure in the American story except as slaves as reminders of guilt And nobody likes to be reminded of guilt David K Shipler A Country of Strangers Blacks and Whites in America On September 14 2001 Kent State University s Ashtabula Campus sponsored its colloquium on race based on David K Shipler s A Country of Strangers by the Pulitzer Prize winning author of Arab and Jew This collection of 18 papers explores such topics as blacks and whites in the performing arts racial profiling racism in American baseball race work and wholeness musical style as a symbol of black cultural identity the early Newberry Library in Chicago the use of the body by artists to reveal the mind Southern white ministers at mid century building a diverse and respectful campus community organizational changes creating a new climate for racial equality the missing voice of the Spanish speaking in the black white dialogue the concept of equality of educational opportunity for African Americans and praises criticism and comments for A Country of Strangers Blacks and Whites in America **Breaking the Code of Good Intentions** Melanie E. L. Bush, 2004-06-19 Breaking the Code of Good Intentions places the current day white experience within a political economic and social context by exploring the perceptions of students about identity privilege democracy intergroup relations This book documents how the everyday thinking of ordinary people contributes to the perpetuation of systemic racialized inequality and identifies opportunities to challenge these patterns with particular recommendations for the educational system of the twenty first century Visit our website for sample chapters **Expanding Underrepresented Minority Participation** Institute of Medicine, National Academy of Engineering, National Academy of Sciences, Policy and Global Affairs, Committee on Science, Engineering, and Public Policy, Committee on Underrepresented Groups and the Expansion of the Science and Engineering

Workforce Pipeline, 2011-07-29 In order for the United States to maintain the global leadership and competitiveness in science and technology that are critical to achieving national goals we must invest in research encourage innovation and grow a strong and talented science and technology workforce Expanding Underrepresented Minority Participation explores the role of diversity in the science technology engineering and mathematics STEM workforce and its value in keeping America innovative and competitive According to the book the U S labor market is projected to grow faster in science and engineering than in any other sector in the coming years making minority participation in STEM education at all levels a national priority Expanding Underrepresented Minority Participation analyzes the rate of change and the challenges the nation currently faces in developing a strong and diverse workforce Although minorities are the fastest growing segment of the population they are underrepresented in the fields of science and engineering Historically there has been a strong connection between increasing educational attainment in the United States and the growth in and global leadership of the economy Expanding Underrepresented Minority Participation suggests that the federal government industry and post secondary institutions work collaboratively with K 12 schools and school systems to increase minority access to and demand for post secondary STEM education and technical training The book also identifies best practices and offers a comprehensive road map for increasing involvement of underrepresented minorities and improving the quality of their education It offers recommendations that focus on academic and social support institutional roles teacher preparation affordability and program development

Diversity's Promise for Higher Education Daryl G. Smith, 2020-08-11 Building sustainable diversity in higher education isn't just the right thing to do it is an imperative for institutional excellence and for a pluralistic society that works Updated Edition Daryl G Smith has devoted her career to studying and fostering diversity in higher education In Diversity's Promise for Higher Education Smith brings together research from a wide variety of fields to propose a set of clear and realistic practices that will help colleges and universities locate diversity as a strategic imperative and pursue diversity efforts that are inclusive of the varied and growing issues apparent on campuses without losing focus on the critical unfinished business of the past To become more relevant to society the nation and the world while remaining true to their core missions colleges and universities must continue to see diversity like technology as central not parallel to their work Indeed looking at the relatively slow progress for change in many areas Smith suggests that seeing diversity as an imperative for an institution's individual mission and not just as a value is the necessary lever for real institutional change Furthermore achieving excellence in a diverse society requires increasing institutional capacity for diversity working to understand how diversity is tied to better leadership positive change research in virtually every field student success accountability and more equitable hiring practices In this edition which is aimed at administrators faculty researchers and students of higher education Smith emphasizes a transdisciplinary approach to the topic of diversity drawing on an updated list of sources from a wealth of literatures and fields The tables and figures have been refreshed to include data on faculty diversity over a twenty

year period and the book includes new information about gender identity embedded bias student success the growing role of chief diversity officers the international emergence of diversity issues faculty hiring and important metrics for monitoring progress Drawing on forty years of diversity studies this third edition also includes more examples of how diversity is core to institutional excellence academic achievement and leadership development updates issues of language examines the current climate of race based campus protest addresses the complexity of identity and explains how to attend to the growing kinds of identities relevant to diversity equity and inclusion while not overshadowing the unfinished business of race class and gender
