Flight to the Top of the World David L. Bristow, 2018-07-01 In his day Walter Wellman 1858 1934 was one of America s most famous men To his contemporaries he seemed like a character from a Jules Verne novel He led five expeditions in search of the North Pole two by dogsled and three by dirigible airship and in 1910 made the first attempt to cross the Atlantic Ocean by air which the self styled expert on aerial warfare saw as a mission of world peace He endured hardships cheated death on more than one occasion and surrounded himself with a team of assistants as eccentric and audacious as he was In addition to his daring adventures Wellman became a nationally known political reporter and unofficial spokesman for the McKinley and Roosevelt administrations He was not the first newspaper sponsored adventurer but more than any of his predecessors he turned exploration into a real time media event and his

reputation both flourished and suffered because of it Wellman lived during a time of rapid social and technological change when explorers were racing to fill in the last remaining blank spots on the map and when aviation promised to fulfill humanity's greatest hopes and darkest fears Flight to the Top of the World is a window into Wellman's time and illuminates many of its dreams and contradictions **Changes in Espionage by Americans: 1947-2007** Katherine L.

Herbig, 2011-03-31 Since 1987 the Defense Personnel Security Research Center PERSEREC has maintained a database on espionage by American citizens based largely on open sources and has collected files on each of the 173 individuals in the database Although its main focus is the personnel security system PERSEREC monitors and analyzes espionage by Americans in order to improve understanding of this betrayal of trust by a small minority of citizens This report is the third in a series of technical reports on espionage based on the PERSEREC Espionage Database files of information from the press and scholarship on espionage The focus of this report is on changes and trends in espionage by Americans since 1990 compared with two earlier periods during the Cold War Its subjects are American citizens Individuals are compared across three groups based on when they began espionage activities The three groups are defined as between 1947 and 1979 1980 and 1989 and 1990 and 2007 *School & Society* James McKeen Cattell, Will Carson Ryan, Raymond Walters, 1926 [Divided Loyalties](#)

Dennis Hamley, 2019-09 *Two Men and A People* Gregory H. Blake, 2019-08-06 Two opposing generals and the people of East Tennessee met in the fall of 1863 For James Longstreet the commander of the Confederate forces the campaign for Knoxville and East Tennessee marked the nadir of his military career which climaxed in December 1863 with him submitting a letter of resignation as commander of the First Corps of the Army of Northern Virginia For Ambrose Burnside commander of the Federal forces the campaign demonstrated his leadership and tactical ability following his December 1862 debacle as commander of the Army of the Potomac at the Battle of Fredericksburg Virginia For the region of East Tennessee and Knoxville the campaign enabled the people to reach the pinnacle they had aspired to since their settlement of the region They had escaped economic and religious oppression in Europe negotiated and fought with the Cherokee Indian Nation created the State of Franklin which was denied statehood saw its political power vanish to Middle Tennessee and was limited in its economic development by the region's landscape **Hurricane of Independence** Tony Williams, 2009-07-01

The sleeper history hit of 2008 released in paperback to coincide with the heart of hurricane season On September 2 1775 the eighth deadliest Atlantic hurricane of all time landed on American shores Over the next days it would race up the East Coast striking all of the important colonial capitols and killing more than four thousand people In an era when hurricanes were viewed as omens from God what this storm signified to the colonists about the justness of their cause would yield unexpected results Drawing on ordinary individuals and well known founders like Washington and Franklin Tony Williams paints a stunning picture of life at the dawn of the American Revolution and of the weighty choice people faced at that deciding moment Hurricane of Independence brings to life an incredible time when the forces of nature and the forces of history

Divided Loyalties Richard M. Ketchum,2003-11 From the outset the Revolution was a civil war cruelly dividing families and friends The dense compact character of 1760s New York City a maritime community of about 18 000 souls brought those divisions into stark relief As Ketchum shows us it was then as now a city whose lifeblood was commerce and whose consuming interest was money However money was to be made and its interests defended in different ways The DeLanceys were Anglican well connected urban merchants and they threw in their lot with the crown Their long time rivals the Presbyterian Livingstons were landed Hudson River gentry and patriots Both felt the pinch of London s new taxes But beyond pecuniary matters both had deeply held convictions about good and just government and proper relations with the other country The irony was that the allegiance of loyalist and patriot alike was not to the king or to England but to what they saw as their own country America

Lincoln & Davis Brian R. Dirck,2001 As Savior of the Union and the Great Emancipator Abraham Lincoln has been lauded for his courage wisdom and moral fiber Yet Frederick Douglass s assertion that Lincoln was the white man s president has been used by some detractors as proof of his fundamentally racist character Viewed objectively Lincoln was a white man s president by virtue of his own whiteness and that of the culture that produced him Until now however historians have rarely explored just what this means for our understanding of the man and his actions Writing at the vanguard of whiteness studies Brian Dirck considers Lincoln as a typical American white man of his time who bore the multiple assumptions prejudices and limitations of his own racial identity He shows us a Lincoln less willing or able to transcend those limitations than his more heroic persona might suggest but also contends that Lincoln s understanding and approach to racial bigotry was more enlightened than those of most of his white contemporaries Blazing a new trail in Lincoln studies Dirck reveals that Lincoln was well aware of and sympathetic to white fears especially that of descending into white trash a notion that gnawed at a man eager to distance himself from his own coarse origins But he also shows that after Lincoln crossed the Rubicon of black emancipation he continued to grow beyond such cultural constraints as seen in his seven recorded encounters with nonwhites Dirck probes more deeply into what white meant in Lincoln s time and what it meant to Lincoln himself and from this perspective he proposes a new understanding of how Lincoln viewed whiteness as a distinct racial category that influenced his policies As Dirck ably demonstrates Lincoln rose far enough above the confines of his culture to accomplish deeds still worthy of our admiration and he calls for a more critically informed admiration of Lincoln that allows us to celebrate his considerable accomplishments while simultaneously recognizing his limitations When Douglass observed that Lincoln was the white man s president he may not have intended it as a serious analytical category But as Dirck shows perhaps we should do so the better to understand not just the Lincoln presidency but the man himself
