Divine And Contingent Order:

Divine and Contingent Order Thomas F. Torrance, 2005-07-20 This book examines the implications of the Judaeo-Christian claim for our understanding of the universe that it is contingent freely created by God out of nothing and having an existence freedom and rational order of its own while still dependent on him Professor Torrance argues that this claim made possible the development of western empirical science but that Newtonian physics obscured the connection between the rational order of nature and the Christian doctrine of creation He shows how modern relativity and quantum theories have once again drawn attention to the significance of contingency and imply that the universe is found to be consistently rational only if it is dependent on a creative rationality beyond it He considers finally the disorderly elements in the universe both physical and moral and argues that the doctrine of incarnation as well as of creation is necessary to deal with the intellectual problems which they raise

Persons, Powers, and Pluralities Eric G. Flett, 2011-04-14 Through an intimate conversation with the writings of Thomas F Torrance Flett articulates a Trinitarian theology of culture Torrance's work suggests that Christian assumptions in the areas of God creation and humanity had an important influence upon the development of Western scientific culture This book develops each of these areas of Torrance's thought in order to articulate a theology of culture rooted in a Christian understanding of God as triune creation as contingent and human persons as stewards created in the image of God Drawn together these three areas of Torrance's thought suggest that human culture and cultural plurality ultimately originate in the creative action of a triune God mediated through the creative activity of the human creature as it engages a contingent created order in its attempts to foster human flourishing and to bear embodied witness to its Creator The result is not only a unique contribution to the emerging secondary material on Torrance's work but also a contribution to the field of theology of culture as a systematic locus in its own right

Transcendence and Spatiality of the Triune Creator Chan Ho Park, 2005 Since Augustine many philosophers and theologians have discussed the relation of God to time whereas the relation between God and space has been rarely discussed This book deals with the relationship of God to space Divine transcendence is one important aspect of the Christian God However God is also immanent in the world of space and time The author investigates the concept of divine spatiality and presents case studies of three modern theologians Torrance Pannenberg and Moltmann He also analyses divine spatiality by using Dyrness's three categories relationship agency and embodiment

Person, Personhood, and the Humanity of Christ Hakbong Kim, 2021-05-19 The quest for an understanding of humanness has been significant As the ways in which we recognize and define our human being have significant impact wide ranging discussions and questions about the human have taken place with significant theoretical and practical implications In *Person Personhood and the Humanity of Christ* Hakbong Kim explores Thomas F Torrance's critiques of the dualist and individualistic views concerning human beings in the history of philosophy and theology This book sheds important light on Torrance's understanding of

humans as persons in relation the trinitarian personhood as the ontological foundation for human personhood and the humanity of Christ as key to the personalization necessary for a new moral ethical and social life This presents a Christocentric anthropology and ethics which focuses on Christ s ongoing reconciling and humanizing ministry for us

The Word Became Flesh David Graham Griffin,2016-05-16 Is following Jesus natural Many would say no but this book argues yes Saying no suggests that grace and human nature are alternate moral categories Saying yes implies that our humanity is gracious in origin capacity and intent Much of this discussion hangs on what is meant by nature and natural and this book explores these ideas creationly and christologically Part One considers natural law as commonly found in the classical Christian tradition Part Two explores the radical christological tradition of Anabaptism Part Three then proposes the two nature christology of the Chalcedonian definition as a theological resource enabling their reconciliation The Chalcedonianism of the modern Barth and the ancient Maximus the Confessor are appropriated along with scientific theology of T F Torrance and Nancey Murphy If Chalcedon correctly affirms Jesus s humanity as being homoousios one nature with our humanity created like Adam s through the eternal Spirit then Jesus s life was natural proper to its created intent And as his divine nature was homoousios with the Father s nature he is the human expression of the divine Word which gives creation its contingent moral rationality As such the life of Jesus Anabaptists concern is morally normative for all humanity natural law s concern

Thomas F. Torrance Paul D. Molnar,2009 This book provides an important study of the theology of Thomas F Torrance who is generally considered to have been one of the most significant theologians writing in English during the twentieth century with a view toward showing how his theological method and all his major doctrinal views were shaped by his understanding of the doctrine of the Trinity Torrance pursued a theology that was realist because he attempted to think in accordance with the unique nature of the object that is known In holding to such a methodology he drew an analogy between theology and natural science This book demonstrates how for Torrance God relates with humanity within time and space so that creation finds its meaning in relation to God and not in itself this enabled him to avoid many theological pitfalls such as agnosticism subjectivism and dualism while explaining the positive implications of various Christian doctrines in a penetrating and compelling manner This book offers an important resource for students of theology and for scholars who are interested in seeing how serious dogmatic theology shapes and should shape our understanding of the Christian life

Knowledge of the Self-revealing God in the Thought of Thomas Forsyth Torrance John Douglas Morrison,1997 This work examines Thomas Forsyth Torrance s concern for the modern re entrenchment of dualism as it has negatively affected the Christian faith and the realist knowledge of God in Christ Additionally an analysis is made of Torrance s program to faithfully restore theological thinking theological science and true objectivity out of the Christocentric Trinitarian self disclosure of God via the modern return to critical realist epistemology in the physical sciences e g Einstein Polanyi The study concludes with a critical examination of the adequacy and completeness of Torrance s endeavor the

problem of residual dualism in the light of his own theological and redemptive concerns

The Promise of Trinitarian Theology Colin E. Gunton, 1997 A reissue of a brilliant and accessible introduction to Trinitarian thought Colin Gunton argues that the theology of the Trinity has profound implications for all dimensions of human life Central to his work is his argument that the doctrine should offer ways of articulating the being of God and of the world so that we may be better able to live before God and with each other

Deification in Eastern Orthodox Theology Emil Bartos, 1999 This book examines the past and present of the English parish system and proposes a new way of structuring the church in England rooted in the Anglo Saxon world The English parish is in a state of crisis Ideally suited to the static

agricultural hierarchical society in which it developed it has become a severe impediment to the Church's work today. It needs to change. In this fascinating and insightful book Nick Spencer explores the parish's past, present, and future. He shows that rather than being synonymous with English Christianity, the parish was a comparatively late arrival on the scene and one whose main roots were economic and social rather than ecclesiastical. He goes on to explain why the parish is now singularly inappropriate for modern ministry, before proposing a genuine alternative based on the system of Anglo-Saxon minster churches out of which parishes grew. *Orate Fratres*, 1947
